## ALL SIBERIA MOBILISING TO STOP JAP AGGRESSIONS

### Ready For Call To Take Field Against The White Guards

### ARE NOT SLAVES

### Aid Of Cossacks Also Is Invoked To Repulse The "Traitors"

*(Dalta News Agency)*

Chita, Dec. 18.—The village councils of peasants in the Maritime Province are passing resolutions for the mobilisation of young men in order to suppress the White Guards.

A great mass meeting at Svobodni, Amur Province, attended by the citizens at large and soldiers of the garrison, passed a resolution to the effect that the working people of Russia must not become the slaves of Japan and shall not permit the White Guards to crush them.

At the first call of the Government the workers will unanimously join the defenders of Russia's freedom against foreign oppressors and White Guard traitors.

The journal Soviet Siberia, discussing the offensive of the reactionaries, says that the present adventure is arousing great opposition and that the adventurers will be confronted with a staunch wall of bayonets held by an outraged and angry people.

**FOREIGN INTRIGUES**

The Menshevik paper, Our Voice, says that the Merkuloff offensive in the Maritime Province was prompted by a desire to create an effect in Washington. The offensive is a result of the intervention, diplomatic intrigues and manipulation entirely in the interest of the interventionists.

The Maritime Provincial Administration has issued to the population of the province a proclamation, asking them to remain composed in view of the combined activities of Merkuloffists and Japanese who have used the Kappelists in order to compel Chita to yield to their demands.

If the population will remain loyal and support the Government, the Japanese will fail to enslave the population of the Russian Far East and the nation will be saved from the traitors and foreign enemies.

The Executive Council of the Ussuri Cossacks has appealed to the Cossack population to put up a stiff resistence to the enemies of Russian people and to support by all means the People's Revolutionary Army in its struggle for independence and happiness of the Far Eastern Republic.

**HIS IS THE BRAIN**

Harbin, Dec. 18.—The soul of the Japanese intervention in the Russian Far East is Professor Higuchi, who was educated in Russia and is regarded as a specialist in Russian affairs. He is said to be very popular among Japanese militarists. At present he is living in a house of the Orthodox Church in Vladivostok.

The recent offensive in the Maritime Province is closely connected with his name. The Mayor of Vladivostok, Mr. Yeremeieff, the State Controller of the so-called Merkuloff Government, Grodetsky, and a Minister, Soboleff, are his devoted disciples. This Russo-Japanese combine is responsible for the present activities of Merkuloffists in the Maritime Province.

## Visiting Editors Given Reception

Mr. Frank P. Glass, chairman of a committee appointed by the World Press Congress to investigate the news services in China and Korea; Mr. Frank P. Glass, Jr., assistant foreign editor of the New York World, and Mr. William Smith, editor and publisher of the Waukegan, Illinois, Sun, were guests yesterday afternoon at a reception given at the Y.M.C.A. by the Association of Chinese Newspapers.

Speeches were made by Mr. Wang Han-kee, general manager of the Sin Wan Pao and Mr. Shao Chung-hui, of the Republican Daily News. Mr. Glass responded. The Glass party today will be entertained at tea at the Shun Pao offices.

## Baron Takahashi New Premier Of Japan

BARON Takahashi, head of the Japanese Cabinet. He was a close friend of Premier Hara, is friendly toward China and is anti-militaristic.

## CALL IS SOUNDED TO AMERICANS TO JOIN RED CROSS

Again the call is being sent out to Americans in China to participate in the work of the American Red Cross—as members preferably—or as contributors to the fund that is maintained to aid Americans in need.

Today the fifth annual roll call of the American Red Cross in China is being opened and its prime object is the enlistment of all American residents as members of the organisation. In America this annual campaign was held in the period from Armistice Day, Nov. 11 to Thanksgiving Day and President Harding's proclamation, published in the editorial page of this issue, sets forth the needs, tells the objects of the organisation and calls for the support of all loyal citizens.

In Shanghai the drive for new members and for the fund that is needed is to continue from today until January 5. As far as possible from available lists the appeal has been mailed to all American residents. Membership in the Red Cross is separated into various classes, fees for which range from $2 a year to $100 a year.

The requirement for a cash fund is to enable the Shanghai organisation to continue local relief work hitherto carried on by means of a surplus, now exhausted, in affording aid to Americans in need here.

Illustrating one phase of Red Cross work in Shanghai is the following:

**BY WESS WILLIAMS**

A sailor in the U. S. Navy wrote to the Shanghai American Red Cross Headquarters for a job. He was an up-standing young fellow of fine character and the American Red Cross offered to help him.

A later letter indicated that he had changed both mind and state. He decided to remain in the navy. And he got married to a nice young Russian girl.

What he wanted the American Red Cross to do now was not to help him but to help his wife get acquainted in Shanghai. Her name and address were turned over to one of the American Red Cross ladies. Now the young bride has an increasing circle of acquaintances and is rapidly learning to speak American.

## Weekly Review Of Local Markets In The Evening Star

A complete review of all Shanghai markets is published every Friday in THE EVENING STAR. The subject matter is treated comprehensively, and with a full understanding of local conditions.

One of the features of the article which is to appear in tonight's issue of THE EVENING STAR will be an analysis of up-to-the-minute conditions in the silk market here. It deserves the attention of every Shanghai business man who is in any way interested in silk.

For complete market news and accurate exchange reports, read THE EVENING STAR every day.

## MIRTH ROCKS DAIL; SISTER OF EX-MAYOR MAKES VOW

### Cosgrave Seeks To Laugh Down Opposition In Humorous Speech

### SEES NO FUN IN IT

### Miss McSwiney Ready To Teach Children Its "Iniquity"

*(Reuter's Service)*

London, Dec. 21.—A very striking speech at the resumption of the debates of Dail Eireann by Mr. Cosgrave, the Minister of Local Government, kept the House rocking with laughter.

In an attempt "to laugh the Opposition's case out of court," he completely restored the humor of the Parliament which was threatening to become stormy. He urged that the Treaty gave the Southerners an opportunity of persuading the Northerners to cooperate in giving Ireland its proper place in the world.

Miss Mary McSwiney, sister of the former Lord Mayor of Cork, vehemently attacked the Treaty, declaring that, if it were ratified, she would devote her life to teaching the children of Ireland that the Treaty was the greatest treachery in history.

Dail Eireann then adjourned.

*(Reuter's Service)*

London, Dec. 21.—Dail Eireann's debates on the Treaty have been very heated and unexpectedly prolonged. A decision is now unlikely before Thursday but a motion of closure will be necessary to secure the ending of the debates this week and this will provoke further opposition. The speakers yesterday were equally divided between supporters and opponents of the Treaty.

There was a great scene yesterday when Mr. Milroy, supporting the Treaty, revealed De Valera's form of oath, namely, "Swear to bear true faith and allegiance to the Constitution of Ireland and the Treaty of Association of Ireland with the British Commonwealth of Nations and to recognise the King of Great Britain as head of the Associated States."

Mr. Milroy said that the sole issue was the two forms of oath. De Valera said that it was shameful to disclose a secret document. Mr. Milroy demanded whether they were going to send the youth of Ireland to the shambles for a shadow. Similar warmth characterised the remainder of the debate.

When the debate was continued today Mr. Gavan Duffy recommended the adoption of the Treaty "in pursuance of the pledge extorted from him when he signed." He said that there was no alternative to the Treaty which gave Ireland the power she had not had for hundreds of years.

Mr. Duggan declared that he had not been frightened by Mr. Lloyd George when he signed and ridiculed the idea that the delegates had been bluffed.

**RIOTING KEEPS UP**

Belfast, Dec. 21.—Rioting continued in Belfast today. One was killed and one wounded when rioters attacked a street car. The passengers were forced to lie flat on the floor of the car during the fighting, and police were called to rescue the crew.

## Scientist Lecturer Delivers Talk Here

Speaking before a large audience, Mr. John C. Lathrop, C. S. B., yesterday evening delivered an address on Christian Science at the Masonic Hall as a part of the program instituted by the "Mother Church," the First Church of Christ Scientist of Boston, to place the case of Christian Science before the world.

Mr. Lathrop was introduced by Mrs. Mabel Shengle, first reader here, and the text of his speech will be found on the editorial page of today's issue.

## Women Appointed By President Harding As Advisory Committee To Arms Conference

THESE women have been appointed by President Harding to act as an advisory committee to the U. S. Delegates at the Conference to Limit Armaments. They were photographed on leaving the White House, after paying their respects to the President. Left to right, they are: Mrs. Katherine P. Edson, of California; Mrs. Thomas G. Winter, Minnesota; Mrs. Eleanor F. Egan, New York, and Mrs. Charles S. Bord, Massachusetts. Mrs. Egan, who has many friends in Shanghai, was chosen for her intimate knowlege of Philippines and Far Eastern affairs in general.

## LIANG RATTLES DRY BONES OF FOREIGN SWAY

*(Staff Wire To THE CHINA PRESS)*

Peking, Dec. 22.—By holding up the specter of international financial control, Liang Shih-yi is endeavoring to compell the assembled warlords to agree to his slate of financial and communications experts who naturally belong to the Chiaotung faction. If he gains all his desires, he will accept the premiership. If only a part, he will take a temporary post designed to carry the Government over the Washington Conference and the Chinese New Year.

The foreign control bugaboo is fairly real to Liang Shih-yi as he is one of the largest holders of Chinese railway shares and he fears and opposes any scheme to accept consotium money unless it comes through Chinese bankers.

## Verdict Withheld In Thompson Case

Hearing was resumed yesterday in the Court of U. S. Commissioner F. J. Schuhl in the case of Capt. John Thompson who is charged with forgery of a master's certificate and at the conclusion of the proceedings the case was taken under advisement.

Mr. J. B. Davies, who has been appearing for Thompson raised the contention yesterday that the defendant could not be held under the particular statute upon which the charge was based by Maj. C. P. Holcomb and this point will be decided when the verdict is given. It was also again contended that Commissioner Schuhl has no jurisdiction in the case on the grounds that Captain Thompson never became naturalised as an American citizen.

## Mothers Throwing Children Into Volga

*(Rosta News Agency)*

Moscow, Dec. 17.—Reports from the famine districts to the Commissariat of Food state that the situation of children is desperate. Many cases are reported where mothers in order to avoid seeing the sufferings of their children throw them into the Volga River or stab them.

The railway stations and wharves are filled with large crowds of hungry children. The problem of housing the children is terrible. In Sysran there are four times as many children as the homes can accommodate.

The Persian fishermen of Baku have decided to contribute ten percent of their earnings to the famine fund. Besides this, they have organised a "Relief Week," in the course of which they collected 250,000,000 rubles. The money was used for purchasing food.

## *No Holly Ribbons But Red Tape Tie Xmas Gifts Here*

**By Elsie McCormick**

Christmas takes a longer time to incubate in Shanghai than any place we know of, with the possible exception of those magazine offices which make up the holiday number [illegible] to keep the electric fans from blowing the copy away. It begins long before Thanksgiving, before even the time when people sorrowfully take their fur coats out of mothballs and realise that the only really effective way to use them in killing moths is to hit the moths with the balls. Christmas goes through the stages of infection, rising temperature, and crisis, which is reached with the sailing of the last boat to reach home before December twenty-fifth. The epidemic then abates temporarily, only to rise to fever pitch again when transpacific presents arrive and the time for local shopping grows short.

Shanghai, we might remark, gets Christmas going and coming. It gets it going when the last filet lace handbag swings out from the dock and blows its whistle as it points toward America; it gets it coming when the first kaleidoscope necktie from home turns off the steam and fastens up to the jetty. The month that elapses between these events is quite necessary for recuperation.

**HIMSELF UNSTRUNG**

After untying parcels at the Customs Office until he felt completely unstrung, an exasperated friend of ours remarked that next year he would buy the folks a lot of goldfish and let them swim home. We would like to make the same suggestion to our friends in the States, because receiving a gift here is even more complicated and painful than sending one. The verse, "It is more blessed to give than to receive" can be applied to Shanghai like mucilage to the back of a postage stamp, though neither process here can be regarded as especially blessed.

If you are an American, you get a nice, stiff little pasteboard, hoping that you are well and informing you that there [illegible] package at the postoffice. You hop in the nearest ricsha, as light-hearted as a firefly about to marry a glowworm, and let each flop of the coolie's straw sandals bring you nearer to the rope of pearls which you award yourself from the family.

**BUTCHERY BEGINS**

When you present the card at the office, however, a Chinese with a face as impassive as a crack mah-jongg player with all winds and dragons in his hand remarks that you haven't any chop from the Chinese post office. You acknowledge the charge; in fact, you even go so far as to say that you haven't any steak from there, either. You are so ignorant that you don't even know they run an abbatoir as a sideline. The clerk gives you a look resembling the voice of a man in a fashionable tourist bureau when you ask for second-class tickets, and succinctly informs you that you must go to the Chinese post office and give them five dollars.

Not having time to look up the criminal code in order to discover what section you violated by receiving a gift from home, you flag another ricsha and start down town again. At the Chinese post office, you join a mass of natives in close formation and wonder as you struggle why so many coolies are getting Christmas presents. When you finally reach the desk, somebody takes the five dollars from you without even administering a local anaesthetic.

**OFFICIAL OPENING**

You hint in a hushed voice about a package, only to be informed that it is back at the American post office where you came from. A ricsha coolie paddles the mud again, a pack-

(Continued on Page 8)

## "Forward, March!"

**Read Eugene Chen's New Series in THE CHINA PRESS.**

AT the request of THE CHINA PRESS, Mr. Eugene Chen, gifted writer and Editor, is preparing a series of important articles on the Chinese situation, the first of which is to be published next Sunday. Mr. Chen is President Sun Yat-sen's private foreign secretary. He will discuss authoritatively the present political division of China, its cause and significance; and he will indicate the means which the National Government at Canton is now taking to effect the political unification of the country.

EUGENE CHEN

These articles by a REAL CHINESE AUTHORITY, who is also taking an active part in the political staff work of the Canton Movement, must be read if you want to follow intelligently the big developments which will be witnessed in the coming months, first, in the Middle Yangtsze and, later, in the North.

## HARDING'S ADMISSION OF ITS AMBIGUITY IS HAILED BY OPPONENTS

### Now Find Japan Proper Is Exempted From Provision And President Says No Objection Is Felt By Him—Borah Leads Attack—Fear America May Be Guaranteeing To Protect Japan

### SENATE MAY REQUIRE DEFINITION

### Kato Refuses To Say What Interpretation Japan Will Put On It Until Advised By Tokio—New York Press Is Strong Against Submarines

(Trans-Pacific Public Ledger— Exclusive To The China Press)

Washington, Dec. 21.—The statement from the White House that President Harding is of the belief that the Quadruple Agreement does not cover Japan proper in its provisions has caused a profound sensation especially among the opponents to the treaty.

Later it was explained that the President had learned that the delegates agree to the construction that the treaty does not cover Japan proper, and it was stated that the President had no objection to having that construction placed upon it.

The Senate opposition has seized the point and is attacking the treaty as being so ambiguous that even the heads of the Government are in disagreement as to its actual meaning and extent.

Senator Borah is leading the Senate attack. It is also seen as a significant factor that leading New York papers including the Times, World, Herald, Evening Post and Globe oppose the inclusion of submarines. The first press reports on the treaty also criticise it for its ambiguity.

Admiral Baron Kato was asked what construction he placed on the mooted clauses, and replied:

"I must refuse to comment upon it. I prefer to wait for the decision of my Government which will be handed down in Tokio."

## London Expects Rider To Be Added

*(Reuter's Service)*

London, Dec. 22.—The ratification of the Pacific Pact by the United States Senate is regarded as doubtful. The endorsement prospects have not been improved by a statement by President Harding (made on Monday in answer to the doubt in certain quarters as to whether the reference in the first article of the Pacific Pact to "insular possessions and insular dominions in the region of the Pacific" should be interpreted as including Japan) that he did not regard the pact as covering the principal islands of the Japanese Empire although it resulted in a subsequent statement issued by him declaring that he did not object to the Conference interpretation that the Quadruple Treaty included the principal Japanese islands in its application.

The disclaimer, however, is unlikely to end the matter for the anti-Pact Senators are bucked up over the incident and Senator Borah is already making play of the argument that the treaty is so vague that even the President and the Secretary of State cannot agree as to its meaning.

Another argument likely to be employed is that the pact imposes a moral duty on the United States to assist Japan against any attacks from China or, eventually, Russia. The opinion is expressed that some interpretative rider will be added or ratification by the Senate will be made upon reservations designed to fix the meaning indisputably.

The whole episode is being regarded as particularly unfortunate because Japan has been subject to a long and lively committee discussion, the Japanese at first holding that the inclusion of their homeland was a blow to their dignity.

Another subject which is attracting attention in Washington is the Shantung Railway deadlock. There is an impression that Japan's demands savor of a wish to retain, in reality, its control while sacrificing merely its appearance.

**REED AGAIN ATTACKS**

Washington, Dec. 21.—In the Senate today, Senator Reed returned to his attack on the Quadruple Agreement. He declared that President Harding's statement that he did not consider that the Pact covered the principal Japanese islands showed that the Japanese statesmen again had "the long end of the diplomatic negotiations." He added in this connection: "We may wake up tomorrow to find that we had agreed to defend the whole British Empire as that might well include "insular possessions and dominions.'"

**DEADLOCK ON RAILWAY**

*(Reuter's Special Service)*

Washington, Dec. 21.—The Sino-Japanese negotiations deadlock is due to failure to agree on the question of the payment for and administration of the Tsinanfu Railway. A Chinese delegate asserted that the Japanese had declined the offer of cash and proposed to spread the payments over twenty years, giving China

## HUGE CHORUS DELIGHTS THRONG AT TOWN HALL

Attended by an appreciative audience which must have numbered in the neighborhood of 2,000 people, the Christmas festival concert given by the Community Chorus of nearly 300 voices, registered a tremendous success at the Town Hall last evening.

The big chorus is made up largely of choirs from the various schools of the city and its rendition of the two-part program roused the greatest enthusism among the audience. The Chinese girls, dressed in brightly colored jackets, formed a striking picture on the specially constructed stage.

Outstanding numbers in a uniformly excellent program were the solo by Mrs. H. C. Mei, president of the Shanghai Women's Club; the song "Silent Night" by the entire chorus and the concluding number, the "Hymn for China," in which the audience joined.

The singing, which was accompanied by the Municipal Orchestra, was under the direction of Mr. L. M. Perry, who did the training work for the chorus and to whom great credit is due for the entertainment's success. The soloists included Miss Jouravel, Mr. R. A. Curry, Mr. G. M. James and Mrs. Mei.

Mr. Geroge Fitch in a brief speech thanked the board of patrons, the group of Chinese men and ladies who guaranteed the expenses of the undertaking.

the option of retiring the debts in ten years' time.

The Chinese wanted ten years with the option of a final settlement after three years but the Japanese would only concede the option after a period of five years. The Japanese also wanted a Japanese traffic manager, chief engineer and accountant.

Mr. Hanihara, in the course of an interview, declared that the Japanese had made numerous concessions, and the Chinese none. The Japanese considered the appointment of a Japanese traffic manager essential for the operation of the Railway and for assurance of protection to the Japanese financial interests.

**HUGHES PRAISES FRANCE**

**Washington, Dec. 21.—Mr. Hughes in his letter to M. Briand, which is couched in frankest and gravest language, says the proposed agreement is tremendously in favor of France, and really doubles the French Navy's relative strength. He feels therefore that the proposal of France to build ten new capital ships suggests a program of such magnitude as to raise the greatest difficulties.**

**"In fact I regret to say it would be impossible on this basis to carry through the agreement. It is not against the interests of France that we express the hope that her industry and resources will be devoted to her economic recuperation and the enhancement of her prosperity rather than expended on building fighting ships.**

**"At this time when we are anxious to aid France in the full recovery of her economic life, it would be disappointing to be advised that she is contemplating putting hundreds of millions into battleships."**

**Finally Mr. Hughes expresses the hope that the matter, which represents perhaps the most critical position yet reached in the Conference, may be satisfactorily adjusted.**

**FRANCE IS TABULATING**

*(Reuter's Service)*

Washington, Dec. 21.—Admiral de Bon is tabulating the precise figures of submarine and other light craft tonnage, which France will submit to the Naval Committee on December 22, as the minimum required for defensive purposes.

M. Sarraut declared that the submarine strength of Britain, the United States and Japan would not be taken as a measure for the French figures, which would represent France's irreducible necessities.

Admiral de Bon said that France had given everything in the war for peace and had not peace. They were giving up their navy now because the American Government had asked them to do so.

On behalf of the Italian delegation it is stated that Italy's policy will be largely guided by the naval strength alloted to France.

**SAYS MUST KEEP SUBS**

Paris, Dec. 21.—Interviewed by a representative of the Matin today, M. Briand, commenting on the naval situation after the Washington Conference, stated that, whereas France willingly agreed to a reduced quota of capital ships, she must insist on retaining small and speedy cruisers and submarines to protect by her own means her immense coastline and to keep in touch with every corner of her colonial empire.

**'LEAGUE FOR SPOILS'**

*(Rosta News Agency)*

Moscow (Via Chita), Dec. 17.—The London Daily Herald says that Japan's consent to the proposal of naval disarmament was purchased at the Washington Conference at a price stated in the agreement on questions relating to the Far East.

In the opinion of the paper, the new alliance is a league for the division of spoils. The Washington Conference will go down into the annals of history as the greatest triumph of capitalistic imperialism.

Discussing the same question, the Far Eastern Telegraph says: "The newly-formed Trust (Quadruple Alliance) undoubtedly is dangerous to Russia, Germany, China and other countries, but it does not possess the necessary harmony. This lack will be more evident to Washington when the endangered countries have organised their resistance."

## *Is Business Manager Of American School*

MR. J. M. HOWE

Mr. J. M. Howe, a teacher in Shanghai College, will become business manager of the American School in January, succeeding Mr. Beaman, who will become business manager of the Shanghai College.

Mr. Howes is a graduate of Reed College at Portland, Oregon, and had considerable experience in business affairs in connection with college activities. He was also manager of a boys summer camp and a public playgrounds director in Portland. He resigned as principal of the Kalama, Washington, High School in 1917 to become an educational secretary with the Army Y. M. C. A. He came to China in 1919 and was connected with the Tung Wen Institute in Amoy, coming from there to Shanghai College.

Mrs. Howes is also a graduate of Reed College, and was formerly librarian at the college.

**WIRE FROM DELEGATES**

The following messages telling of China's position at the Washington Conference have been received from Dr. David Z. T. Yui and Dr. Monlin Chiang, the people's representatives sent from Shanghai to watch and aid China's case:

Japan has practically surrendered ownership and control on Shantung Railway and insists on (1), payment in form of a loan for a period of 30 or 40 years, and (2) the employment of a Japanese engineer-in-chief and traffic manager.

Peking delegates think that in order to gain their object, China may have to accept the first condition, agreeing to employ a chief accountant who is Japanese but not a Japanese traffic manager. They reject the second condition and suggest that Japan extend China credit for 10 years in which payments will be made by annual instalments, reserving the option to complete redemption after the first three years. When that is done, China should not be any longer bound to employing Japanese staff.

A satisfactory arrangement has been reached regarding the salt field, public property, and customs. The vested interests, mines and cables will soon be discussed.

**FEARS 21 DEMANDS**

The Conference is afraid to discuss the 21 Demands and the meeting for its discussion has not yet been called. It looks somewhat hopeful for its cancellation if the Chinese fight hard and agree to extend the lease on Manchuria for 25 years or 30 years. America and Great Britain will probably support this position. The Conference may close by the end of this year.

The latest telegram received is as follows:

Japan insists on refunding Shantung Railway in the form of a foreign railway loan, thereby trying to secure preferential rights and partial control for 9 years. This means a continuous grip on Shantung. China must fight and work for immediate refunding as the earliest ownership means the fullest control. China may on the basis of national loyalty secure the money from the people in China and abroad to accomplish this purpose.

The Chinese in the strongest possible way urge union in China at the earliest possible date in the opinion expressed here by all of her friends.

Following are the text of two messages sent to the chairman of the Washington Conference and to the Japanese premier by members of the "All China People's Diplomatic Federation" following its last meeting. The meeting was presided over by Dr. T. H. Lee, president of Fuhtan University, and was attended by representatives of over fifty organisations, representing the eighteen provinces of China.

Chairman Hughes, Washington Conference, Washington, D. C.—Twenty-one demands exchanges notes pertaining thereto never ratified by Chinese Parliament Chinese people united regard them secret treaties between Peking and Tokio Governments cannot acknowledge them valid. We therefore appeal to conference for abrogation and unconditional restoration Shantung, Present direct negotiations Shantung question outside conference conducted by Peking delegates equal continance twenty-one demands and continuation of traitorous work of Peking Government. For this reason we declare we cannot acknowledge action of Peking Government and delegates if twenty-one demands and Shantung question not settled according to Chinese wishes. We reserve right to retaliation measures. (Sgd.) All China People Diplomatic Federation, executive chairman Lee Tung-hwee.

Premier Viscount Takahashi, Tokio, Japan.—Whole Chinese people greatly disappointed at attitude of your delegates regarding twenty-one demands and Shantung question in view of your declaration before world that you wish settle Chinese problems justly for sake of Sino-Japanese friendship and peace of Far East. We Chinese united as represented by this organisation declare that we will never recognise decision of conference if they are not settled according to wishes of Chinese, that is, abrogation of twenty-one demands and unconditional restoration of Kiaochiao and rights pertaining thereto. If decision is averse Chinese people reserve right to retaliatory measures which will be detrimental to your future commercial enterprise. (Sgd.) All Chinese People Diplomatic Federation, Chairman Lee Tung-hwee.

## YACHT ALOHA HERE AWAITING OWNER'S ARRIVAL

The prettiest sight along the Bund these days is the sail and steam yacht Aloha, pride of the New York Yacht Club, which is owned by Mr. Arthur Curtiss James and which dropped anchor off the French Bund Wednesday afternoon.

The Aloha, which is barque rigged, carrying royal yards and stun' sails, and has auxiliary steam power, is regarded as one of the handsomest most completely fitted yachts afloat. It is 218 feet long and is fitted with a powerful wireless outfit. Her crew numbers 39 salt water sailors and she is skippered by Capt. P. Bezanson, a Nova Scotian.

The Aloha will remain in Shanghai until Mr. James and his party arrive from Peking and Hankow, sailing on January 1 for Hongkong, thence to Singapore, Calcutta and Colombo and then through Suez to Mediterranean ports and home.

The yacht made all of the 3,893 miles between Honolulu and Japan with the exception of 917 miles under sail and cruised about Japan while her owner and his party visited the various cities and spots of interest. The party left the yacht at Fusan to go overland through Korea. Besides Mr. and Mrs. James the party includes Miss Florence Sullivan, Mr. W. J. Mathison, Mr. A. P. Alvord and Dr. Carl Vogel, all of New York City.

Mr. James is the millionaire president of the Curtiss Securities Company, and his cruise around the world is purely a pleasure trip. He is a former Commodore of the New York Yacht Club and was one of the first men to make a sailing yacht tour of the Orient, having brought a group of American college students to Japan on the yacht Coronet to observe an eclipse of the sun in 1896.

## *Ricsha Boy Victim Aids Mission Fund*

Perhaps the most practical method so far evolved of dealing justice to that class of offenders who are brought into court for assaulting ricsha coolies was set forth yesterday in a decision given by U. S. Commissioner F. J. Schuhl in a minor case in which a Filipino, one Emilio Escuin, was defendant.

Police of the International Settlement testified that the accused had beaten a ricsha boy without particular provocation, or because he had not travelled swiftly enough, and the sentence imposed was that Escuin should pay the sum of $25 to the Ricsha Mission and fifty cents to the aggrieved coolie.

## *Consulate Issues Statement In Case Of River Policeman*

In view of misleading articles in the Chinese and foreign press as to the alleged death of a Chinese loadah in Soochow Creek, the Swedish Consulate-General has issued the following statement:

1.—River Police Constable Pettersson, whose name has been mentioned in this connection, is a Swedish subject and, according to the principles of extraterritoriality and existing treaties, the clamor from certain Chinese quarters for his trial by a Chinese Court are absurd. If there is a charge against Mr. Pettersson, the only proper court to take up such a charge is the Swedish Consular Court.

2.—No charge has been made against Mr. Pettersson, neither from the side of the Chinese authorities nor by any private person.

3.—However, a police-inquest has been held at the Swedish Consular Court, at which nothing resulted that could warrant any action against Mr. Pettersson from the side of the Public Prosecutor.

THE WORLD WAR

AND YOU CANNOT FORGET THE WORK OF THE AMERICAN RED CROSS.

Since the war ended its personnel has been greatly reduced, but its organization has become more efficient than ever and will concentrate upon peace-time service and disaster relief.

Over one hundred great disasters have called upon the American Red Cross in recent years and found it ready. The help has been quickly given. It has been skilfully administered. It has shown no discrimination of race or creed.

It has brought medical, surgical and nursing help to sick and wounded. It has provided quick provision for the destitute.

It has distributed half a million dollars worth of supplies to three hundred hospitals in China.

The only way in which the Red Cross can meet the emergencies of fire, flood, famine, earthquake, epidemic and famine and CARE FOR NEEDY AMERICANS IN CHINA is by having the whole people behind it.

Commencing on December 23 and continuing until January 5 the American Red Cross will give you an opportunity to become a member and two dollars Mex. is all it costs for one year.

The man, woman or child who joins the Red Cross and pays two dollars Mex. is as much a member as anyone might be who paid a million dollars.

Wear the 1922 button of the organization before which the world stands in thrilled and loving admiration.

Still the greatest mother in the world.

# ANGLO-FRENCH PARLEY OPENING IS IN HARMONY

*(Reuter's Service)*

Paris, Dec. 21.—The exchange of views between M. Briand and Mr. Lloyd George in London is proceeding satisfactorily, a most friendly tone prevailing throughout.

According to Havas's special representative, the French experts have submitted facts and figures showing that Germany is perfectly able to meet her next payments if she so wishes.

M. Briand and Lord Curzon are now to take up the questions of the Franco-Turkish Agreement and Graeco-Turkish mediation.

The chief object of the conversations, Europe's economic reconstruction, still remains to be settled.

According to the Echo de Paris an All-Europe conference is to meet in January on the French Riviera.

London, Dec. 21.—As a result of the conversations between Mr. Lloyd George and M. Briand it has been arranged for the Supreme Council to meet at Cannes to decide the reparations issue in the middle of January.

M. Briand will return to Paris forthwith.

BY NORMAN BAXTER
(Trans-Pacific Public Ledger-Exclusive To The China Press)

London, Dec. 20.—The action of Premier Briand in withdrawing France's naval demands is believed to have smoothed the path for the British-French negotiations on German reparations payments now in progress here. By his gesture of conciliation toward Great Britain, Premier Briand has gained tremendously, and the negotiations will now proceed at top speed. Herr Rathenau has been summoned to join in the conference between the British and French premiers.

While reports are in circulation that a British-French-German agreement covering the questions at issue may be possible, Lloyd George may make the sensational move of proposing a European conference, including Germany and Russia, to draft a new basis of European relations.

It is reported that the British are favorably considering a project for the withdrawal of the Allied forces on the Rhine, but it is doubtful that, despite the reduction in expense, the French will accept.

The conferees have become reconciled to spending Christmas here. The French tangle is so complicated as to make impossible the conclusion of any permanent arrangements this month, and it is thought probable that the sessions will be continued until at least the middle of January.

PROBE EXCHANGE PLANS
(Special To The China Press)

London, Dec. 21.—It is stated unofficially that Lloyd George suggested at today's conference with Premier Briand that a five-power conference be held next January, the conferees to include representatives of Germany and Russia.

Meanwhile the Allied financiers will examine into the proposals backed by Britain and France for stabilising exchange and improving the European economic situation.

ABANDONS TRIP
*(Reuter's Service)*

London, Dec. 21.—Mr. Lloyd George's visit to Criccieth at Christmas has been abandoned owing to the difficulties of the conversations with M. Briand.

## B. A. T. BANQUET

*(China Press Correspondence)*

Hankow, Dec. 18.—The annual banquet for 1921 of the British-American Tobacco Company, Central China Division, was held yesterday at The New World, Hankow's miniature Coney Island. Guests from the foreign and Chinese communities, foreign and Chinese members of the B.A.T. staffs, and dealers and delegates from the numerous B.A.T. branches over eight central provinces, attended.

Mr. Hunter Mann, President of the American Chamber of Commerce of Hankow, Mr. S. S. Tseng, Vice-Chairman of the Chinese Chamber of Commerce, Mr. E. M. Gale, of the Salt Gabelle at Hankow, Chinese officials of the tobacco-wine and salt revenues administrations and other guests were present.

## MUTT & JEFF — As We Go To Press, Mutt's Still A Financial Wreck — By Bud Fisher

FINANCIALLY I'M A WRECK BUT I KNOW JEFF'S GOT A ROLL! I THINK HE'LL FALL FOR A SMALL TOUCH!
JEFF, COULD I HAVE A FEW CONFIDENTIAL WORDS WITH YOU?
CERTAINLY, OLD DEAR! SHOOT!
LISTEN! LOAN ME TWO BUCKS!
MUTT, I CAN'T HEAR VERY WELL WITH THAT EAR! GO AROUND TO THE OTHER ONE!
LOAN ME A FIVE SPOT UNTIL NEXT WEEK!
I THINK YOU BETTER GO BACK TO THE TWO DOLLAR EAR, MUTT!
?
Fisher

* * *

There will be a public tea and dance performance at which the Municipal Orchestra will play at the Town Hall at 5:30 p.m. today.

## LLOYD'S IS HOST TO THE JAPANESE

*(Reuter's Service)*

London, Dec. 21.—The Japanese commercial mission were entertained to lunch today by the committee of Lloyd's Register. Cordial speeches were delivered. The Chairman, Sir John Luscombe, presided. He recalled the fact that the society's first exclusive surveyor was sent to Japan in 1885. There were now 22.

Sir John Luscombe paid a tribute to the services rendered by the Japanese committee, which had been established for the benefit of the shipping industry.

At Dr. Takuma Dan's request, Viscount Ishii replied on behalf of the shipping section. He dwelt on the desirability of and the advantages accruing from a uniform policy in shipping practice on international lines. The speaker thought that the schemes discussed at the recent shipping conference in London would greatly help in universally unifying shipping rules and practice.

Viscount Ishii referred to the introduction of the load-line regulations based on Lloyd's as an earnest of Japan's desire for co-operation.

## *Wall St. Bomber Reveals Red Plans*

(Special To The China Press)

Warsaw, Dec. 21.—Wolfe Lindenfeld, the man who confessed the Wall Street bombing plot, is reported to have made a statement that he attended a mass meeting which was a sequel to the meeting of the Third Internationale at Moscow where the Wall Street explosion was discussed and plans made for further bombings in the United States, including the assassination of Mr. J. P. Morgan.

## BOTANISTS CONFER

Moscow, Dec. 9.—The first botanical conference in Petrograd, in which four hundred scientists from Russia, Siberia and Causus took part, has closed. In the course of the conference one hundred and fifteen reports were submitted showing great progress in all branches of the botanical science despite great difficulties of the present period. The Soviet authorities gave the congress all possible assistance.

## CALL FOR VOLUNTEERS

(Special To The China Press)

Sioux City, Ia., Dec. 20.—The federal authorities issued a call for a thousand volunteer deputies to maintain order at the packing houses. No progress has been made toward settlement of the strike.

## SHIP IS LEAKING

(Special To The China Press)

Astoria, Dec. 20.—A radio message received here today reports that the Texas Maru, 9000 tons, enroute to Kobe, is leaking badly and has lost two men overboard.

## Engineers And S.F.C. Play For Charity On Boxer Day

### Fixture Of Long Standing To Go For Benefit Of Door Of Hope

Arrangements were completed yesterday for the feature football game played annually on Boxing Day, Dec. 26th, for local charities. The match this year will be between the Shanghai Football Club and the Marine Engineers, two of the strongest teams in the two leagues.

Tickets for the game will be put on sale at the principal clubs, at one dollar each. The fund will go to the Door of Hope. The game is to be played on the Recs.' field, commencing at 2:45 o'clock. A tea tent will be provided for ladies as in past years. Mrs. J. Prentice will present the cup to the winning eleven at the conclusion of the game.

**FOOTBALL CHARITIES**

The record of charities aided by the annual match follows:

| | |
|---|---|
| 1909 General Hospital . | $450.00 |
| 1910 Door of Hope ... | 634.50 |
| 1911 (Replay) Shantung Road Hospital ... | 730.00 |
| 1911 St. Luke's Hospital | 700.00 |
| 1912 General Hospital . | 872.48 |
| 1913 Door of Hope .... | 716.00 |
| 1914 Shantung Road Hospital ..... | 1000.00 |
| 1915 St. Luke's Hospital | 1169.00 |
| 1916 General Hospital . | 800.00 |
| 1917 Door of Hope ... | 858.00 |
| 1918 Shantung Road Hospital ..... | 1200.00 |
| 1919 St. Luke's Hospital | 1600.00 |
| 1920 General Hospital . | 1600.00 |
| Total ..... | $12,329.98 |

**PREVIOUS SCORES**

The results of the yearly match of previous years follow:

1909 Won by League Eleven 2 goals to nil.
1910 Drawn game
1911 Replay Recs 2-0.
1911 Won by Recs 2-0.
1912 Won by League eleven 2-1.
1913 Won by interport team 3-0.
1914 Won by Football Club 3-0
1915 Drawn game
1916 Won by Recs 2-1.
1917 Won by rest of Shanghai 2-1
1918 Won by Football Club 5-0.
1919 Won by rest of Shanghai 5-2
1920 Won by Forshaw's Eleven 1-0.

## Harriers Hold Run Tomorrow

The Shanghai Harriers Club will hold a training run for members on Saturday.

A start will be made from the American School grounds at 3 p.m., fast and slow packs running over the course in the Kiangwan district.

There will also be a team race.

## Laydon Champ Of World At 3 Cushion Game

Chicago, Dec. 21.—Mr. John Laydon today won the three cushion billiards championship of the world by defeating Angie Kiechhefer by a score of 180 to 171.

## Ask Football Fans To Aid Expense Fund For Peking Invasion

Football fans, prepare yourselves for a gentle touch, which will sum up to dollars two.

Herby Gallop, manager, financier, secretary, treasurer, and general factotum of the Shanghai American Football Club has armed himself with a bale of tags, and has started ont in an endeavor to raise funds sufficient to defray a portion of the expenses of the Peking Marines, North China Champions of the gridiron, on their trip to Shanghai for the big game with the local boys, December 31.

It is hoped that various American organisations will come in with subscriptions toward the fund in addition to the funds secured by tagging.

The local gridiron stars were out to practice again last night and will take another strenuous work-out Saturday on the Polo Field.

## AUSTRALIA NET PLAYERS ALREADY PREPARE FOR 1922

Already Australia is keenly interested in next year's Davis Cup contest as evidenced from the fact that plans are taking shape for the trip in 1922.

The fine performances of J. O. Anderson have greatly encouraged his countrymen and they anticipate entering a team next season even stronger than this year's representatives.

Writing in The Sydney Referee "Austral" offers the following comment:

"J. O. Anderson's defeat of William T. Tilden opens up a fresh vista for the Australasian team of 1922. It brightens the prospects of the men of the Southern Cross, actually and morally. Lawn tennis leaders will now concentrate on the great objective with renewed determination to relieve Uncle Sam of his Davis Cup.

"Writing last week of Tilden's magnificent performances I said that some day G. L. Patterson or J. O. Anderson might defeat him. We never anticipated, when our team of colts went away, that they would return with such a fine record, and not one of us dreamed that any one of the team would have Tilden's scalp at his belt.

"Anderson evidently played his own game and at his top. As to the strength of his strokes, there has never been much doubt. In 1914, after my trip around the world, I wrote that there was not a forehand drive in the world equal to his. Of course, that of W. M. Johnston, as we saw it at Auckland, is superior to anything we ever saw from Anderson, but his drive on the forehand must have improved vastly. In addition, he must have improved out of sight all around."

After saying that due allowance should be made for the fact that Tilden had doubtless "let down" after the strain of his championship matches, and that the importance of Anderson's victory should not be overemphasised, "Austral" continues:

"This win has changed the whole aspect of the next Davis Cup match if Anderson can manage to go across next year. That is just the rub. To go two years running is a big expense for a young fellow. Probably the difficulty will be got over, for with Anderson in such form, and Petterson as he should be and with Brookes and O'Hara Wood and Hawkes and others to choose from for the doubles, we should go close, indeed, to even defeating America.

## Los Angeles To Have Professional Football

Los Angeles, Dec. 17.—Los Angeles is going in for professional football on a big scale in 1922. The team will represent the Los Angeles Athletic Club and Charles Keppen, athletic director of the club, is already preparing to recruit a top-notch team. Games will be arranged with the Multnomah Club of Portland, the Olympic Club of San Francisco, and leading colleges and universities of the Pacific Coast region.

## THEY PLAY GOLF IN AMERICA AT BREAK OF DAWN

By R. ENDERSBY HOWARD

Golf in England has often been "a craze," but never has the ardor for it been so great as it is now in the United States and Canada.

That is the opinion of George Duncan and Abe Mitchell, the famous British professionals, who have just returned to Britain after a four months' tour of America.

"In the big cities," said Duncan, "the game is just as democratic as it is in Scotland, and the number of players is far larger. At Van Courtland, one of the public courses of New York, you will see hundreds of people—yes, literally hundreds—waiting to start from the first tee. It is like a queue for the pit at a popular play. They get up at 4 or 5 in the morning in the hope of driving off by 8 a.m.

"It is the same at Chicago and other places. It was a tremendously excited crowd of 5,000 people—sprinting after the shots and applauding them at the same time—that saw Charles Evans and Bob Macdonald beat us there by 2 and 1. We were two up with four to play, and lost the next four holes and the match. We realised the full favor of American patriotism when our opponents clinched the struggle by their fine finish.

"Even on the less crowded private courses you will see as many as 80 or 100 people playing before eight o'clock on a Saturday morning. Several times we had to start out by motor-car at this hour for a distant place, and the greens we passed were generally full. At Winnipeg they quote 500 as the record number of players using the course in one day. They all go out in four, five, or six ball matches.

"Walter Travis, Donald Ross, and the other prominent links architects are booked up for the next three years to lay out new courses. In fact, big as golf is now in America, it seems to be only just beginning to grow." Both players are agreed that the leading United States amateurs, taken as a body, are the best putters they have seen anywhere.

**GAVE HER BABY RELIEF AT ONCE**

What Another Mother Says About Baby's Own Tablets.

Mothers everywhere are finding Baby's Own Tablets, the Canadian children's remedy, immensely valuable for their little ones. Here is what an American mother says:

"My baby was much troubled with wind colic", writes Mrs. B. Williams, of Perth Amboy, N. Y., "and nothing seemed to do any good until I tried Baby's Own Tablets. They gave relief at once and I would not be without them. I have taken great pleasure in recommending the Tablets to my friends."

Baby's Own Tablets contain no opiates or narcotics, and are guaranteed an absolutely harmless remedy for infantile indigestion, simple fever, colic, constipation and diarrhoea. They expel worms, allay the pains of teething, promote health-giving sleep and regular development.

Of chemists, also post free at 60 cents the vial from the Dr. Williams' Medicine Co., 96 Szechuen Road, Shanghai.

## Amtraco Basketball Five Retains Lead In League

### Fearon Daniels Climbs Out Of Cellar By Beating Y.M.C.A. Team

Consistancy was the word in basketball last night. The American Trading five won out over the Shanghai Public School by a score of 48-21, retaining their first position with a perfect score, and, in the second game the Y. M. C. A. five in spite of their best effort lost to the Fearon Daniel team at 34-37 and so substantiated their right to the consolation position in the league standing.

The first match was won by Jack Smith, Nichols Tinkham and Kline. Smith and Nichols basketted everything that was passed to them, and Tinkham and his guards registered 14 points in addition to passing forward for many goals. For the School only Johannson and Brockett scored, each with five goals from the floor, and the former with one free throw. Lewis at forward was noticeably absent.

Dennison, on his first time out for the season showed great promise with his 10 good shots for goals, and Sheldon at center with 7 more baskets and another from the foul line piled up the winning score.

The scores follow:

| A. T. Co., 48 | | Pub. School, 21 |
|---|---|---|
| Smith | lf | Caccia |
| Nichols | rf | Lewis |
| Tinkham, Young | c | Johannson |
| Kline, Nelson | lg | Brokett |
| Noble | rg | Brown. |

Goals from floor: Smith 11, Nichols 6, Tinkham 2, Kline 4, Noble 1, Johannson 5, Brockett 5.

Goals from fouls: Johannson, 1.

| Fearon Daniels, 37 | | "Y.," 34 |
|---|---|---|
| Nichols | lf | Van Hook |
| Dennison | rf | Pettit |
| Sheldon | c | Bartlett |
| Patzlaff, Vaughn | lg | Miller, Spencer |
| Kay | rg | Roberts |

Goals from floor: Dennison 10, Nichols 1, Sheldon 7, Van Hook 2, Pettit 5, Bartlett 8.

Goals from fouls: Sheldon 1, Bartlett 4.

# The Shanghai Sanitary Laundry Co., Ltd.

## To Make Final Appeal

The second annual general meeting of the shareholders of the Shanghai Sanitary Laundry Co., Ltd., was held at the offices of the Secretaries and General Managers, Messrs. J. P. Bisset and Co., yesterday evening. Mr. E. T. Byrne presided, being supported by Messrs. T. H. Harris, G. M. W. Hummel, and J. Malcolm, directors, and Mr. A. E. Stewart, representing the Secretaries and General Managers, who also acted as secretary to the meeting.

The shareholders present in person and by proxy represented 202 shares.

The notice convening the meeting and the auditors' report having been read by the secretary, the chairman said:

"Gentlemen, before proceeding further with the business of the meeting, I feel sure that you will all wish to associate yourselves with the directors in expressing very deep regret at the sad death of Mr. Edward Ezra, until recently a member of your board.

"The directors' report and statement of accounts for the year ended November 30, 1921, have been in your hands for some days, and with your permission I will adopt the usual procedure of taking them as read.

"We are here to discuss the unsatisfactory state of the company's affairs as disclosed in the report and accounts, and the difficulties with which your directors have been contending for a considerable time. I would remind you that your attention was called to these difficulties as far back as March 21 of this year in a special report, in which the then unsatisfactory financial position of the company was clearly explained to you and your further support requested. In March we were approaching the limit of overdraft Tls. 60,000 which the company's bankers had consented to grant, and also our capital expenditure had exceeded the amount of share capital subscribed by approximately Tls. 72,600. We were also in want of an efficient Works Manager, but owing to our lack of working capital, we were not in a position to offer sufficient inducement for a laundry expert to come out from England or America. Our special report was followed by an appeal to shareholders to come forward with fresh capital to reduce our overdraft, engage the services of a competent manager, advertise, and generally improve the conduct of the business, and bring the subscribed capital into closer accordance with the value of the capital assets.

"I regret to say that the response to that appeal was very disheartening. We circularised 352 shareholders and received only 32 replies promising applications for 413 additional shares, a prospective increase of capital of only Tls. 4,130.00. As this additional capital was considered altogether insufficient to carry on the business of the company effectively, no allotments were made, in accordance with the undertakings given.

"I think you will agree, that in view of the terms of the special report, this state of affairs would have justified the cessation of business and the winding up of the company. Your directors, however, were reluctant to take this extreme course, being fortunate in securing the continued support of the company's bankers. Changes in the management and staff and economies were made, but the difficult situation was not remedied. We began operations with Mr. Nicholson as works manager, who had all the necessary technical knowledge and experience to erect the plant. Misfortune came soon after the plant had commenced running, when Mr. Nicholson fell seriously ill and had to be invalided home to America, and we were left without any one with the desired experience to take his place.

"We endeavored by inquiries in America and England to secure the services of an expert laundryman; but the salaries asked were considered exorbitant and, moreover, we were not in a position to saddle the company with a contract engaging a manager for a term of years without first putting the finances of the company on a sounder basis. We could only try our best to carry on with what help we could secure locally. We engaged various Europeans in succession realising that they were wanting in experience and special knowledge of laundry work, but hoping that they would prove sufficiently competent to achieve a successful management eventually. Our hopes, I regret to say, have not been realised and we are still faced with the necessity of finding a suitable works manager.

"You will appreciate that having been unfortunate in a series of works managers, it has not been possible to achieve that degree of harmonious and efficient working of our Chinese staff which is necessary for good laundry service. When Mr. Nicholson left us the Chinese workmen who had been working under him also left us. We engaged other staff but were considerably hampered by strikes and inefficiency. It became evident to us at one time, indeed, that a more or less organised attempt by certain Chinese workers to damage the company's business was on foot. We therefore decided to send a representative down to Canton to engage a completely new staff, and these Cantonese who have remained with us since have proved more satisfactory, and with an experienced manager in charge we believe they would prove entirely satisfactory.

"Much damage was done to the goodwill of the business during the period in which we were working under difficulties with Chinese engaged locally and with inexperienced managers. We had to meet continuously numerous complaints of unsatisfactory washing, damaged goods, and shortages.

"We have only recently begun to feel that the Works are now running much more satisfactorily. Within recent weeks we have had several testimonies to the good washing that is being turned out and to the better service now being given. The secretaries were willing, temporarily, to lend the services of their Mr. A. E. Stewart, who has been living at the works and spending a good portion of each day supervising and reorganising the working of the various departments there. I would like to say, here, that our secretaries have in this instance, and in other directions, endeavored to promote the interests of the company, and to that end have voluntarily assumed responsibilities far in excess of the terms of their engagement. In doing so they have had to bear the brunt of many difficulties and worries and public criticisms of matters for which they are not really answerable.

"Messrs. J. P. Bisset & Co.'s services were secured when the company was badly in need of a secretary of sufficient experience, and when the company had already been floated, the erection of buildings and purchase of plant and machinery contracted for, and the manager engaged. So that whatever difficulties have arisen as a result of the company having been floated without a sufficient working capital does not in any way reflect on the secretaries. I should like to place on record the directors' appreciation of the great amount of extra work the secretarieshave done, because although it is customarily and perhaps rightly assumed by shareholders and the general public that the secretaries and general managers are chiefly responsible for the success of a company, this can hardly apply in the present case when they had nothing to do with the floatation and initial organisation of the company.

"What is our position today? You will see from the accounts that since our special report in March, the bank overdraft has increased from Tls. 48,720 to Tls. 67,879, and now exceeds the limit agreed upon with our bankers. This overdraft is secured in the meantime, but our bankers have recently noticed us that they cannot continue their support indefinitely. The contract engaging the secretaries terminates on December 21, 1921, and they have noticed us that they are reluctant to continue their services unless a competent works manager is engaged. Further, we are still building up a large debit balance on profit and loss account.

"Gentlemen, the works have now been in operation for one and a half years, but the company cannot continue under present conditions. We have either to re-establish our finances and works management on a sound basis or go into liquidation. To do the former we want money for which we must look to you, the shareholders. You have already come forward with Tls. 107,170 and I assume that the further Tls. 4,130 already promised will still be forthcoming if asked for. There remain 13,870 unissued shares representing Tls. 138,700 for which you can subscribe. Your assets comprising land, buildings, plant and machinery, motor vehicles, furniture and all fittings, amount to approximately Tls. 128,500 in book value, but considerably more in real value owing to appreciation in land value and the favorable exchange at which the plant and machinery, etc. were bought. And these assets now constitute an exceptionally well arranged and workable Laundry, capable of dealing with 700,000 pieces or more monthly if properly conducted. I suggest to you, gentlemen, this is a property well worth preserving. Your directors have no hesitation in recommending you to give the additional financial support now required, for what in Shanghai is practically a public utility service, one which must inevitably come to be recognised as such by an increasing number of residents.

"Your directors have decided, therefore, to make one further appeal to the shareholders in the terms of their previous special report; that is to say, that each shareholder shall subscribe for and be allotted at par one additional share for every two shares at present held by him. At the same time it is hoped the general public will give their support. We think, however, that a time limit of one month should now be fixed within which time this appeal must be responded to if the company is to continue in business. Your directors recommend that if by January 31, 1922, the necessary additional capital has not been promised, then an extraordinary meeting of the company shall be called to pass resolutions to wind up voluntarily.

"Pending your decision in this latter respect, the directors have thought it desirable to give notice to the whole of the Laundry staff that their services may not be required at the end of this month.

"Before putting the resolution to the meeting I will endeavor to answer any questions relative to the resolution or business of the meeting."

There being no questions put to the meeting, the chairman proposed the following resolution. "That the Directors' report and statement of accounts and balance sheet for the year ended November 30, 1921, as presented to the shareholders be adopted," which was seconded by Mr. G. M. W. Hummel, and carried unanimously.

Mr. Harris then announced "Mr. chairman, gentlemen, in the report it is stated that I offer myself for for re-election as a director. I regret that since the report was issued I have decided not to offer myself for re-election."

Mr. Byrne said "Gentlemen, in view of Mr. Harris not desiring re-election and the fact that there remain three directors, which is the minimum number allowed by the Articles of association, there is no necessity at present to elect another director, but, however, I wish to propose: "That the appointment of Mr. Jas. Malcolm as a director of the company be confirmed." This was seconded by Mr. A. E. Stewart.

Mr. Hummel proposed, and was seconded by Mr. F. C. Rawlins, "That Messrs. G. H. and N. Thomson be re-elected Auditors to the company for the ensuing year at a fee of taels 150 per annum.

Mr. C. R. Burkill, one of the shareholders present, suggested to the meeting, in an informal manner, that inasmuch as Mr. Malcolm was proceeding to Hongkong within the next day or so, he be given considerable power by the Board to enter into negotations with the Hongkong Laundry, in regard to some scheme whereby the affairs of the company might be brought to a satisfactory state.

Mr. Byrne, in replying, stated that the Board would do all in its power to further any such scheme.

# Impressive Memorial Held For Late Mr. Edward I. Ezra

A very impressive memorial service for the late Mr. Edward Ezra was held yesterday evening at the Ohel Leah Synagogue. There was a large congregation in the Synagogue.

After the chanting of the evening service, Rabbi Hirsch read Psalms 90 and 39, and a special prayer was offered for the deceased, the whole congregation standing.

Rabbi Hirsch delivered a stirring sermon. He said in part:

"The personality of Mr. Edward Ezra will always be associated with this imposing edifice, for he worked untiringly for it and with zeal and enthusiasm. It is usual at such services to review the life of him to whose memory it is consecrated. Much of his brief career is familiar to you. In spite of his numerous associations and his wide commercial capacity Edward Ezra lived amongst his own people. He liked to serve amongst men of his own faith, many of whom he counted his most intimate friends. He left nothing in the dark, and there is little in his life that is not known. We know the weakness of human nature. When a man is in the sun of fortune it is the small things which catch our attention. We often speak of his sure judgment and foresight. We admire even his cleverness, his wit, his ability, anything and everything that makes a force spring in life. All the finer qualities of life we lose sight of in life. We feel that in these things in particular we should speak on such an occassion.

"We are thoughtful that Edward Ezra was fitted by Providence for all this. He had all the qualities that go to the making of a steady man—mind, personality—which he possessed in no small measure, and he used them not only for his own advantage. Edward Ezra, in spite of his occupations, reserved many gifts with which Nature kindly endowed him. When yet at school he showed a marked literary taste and an aptitude for letters. This he amply justified later when he published three essays on a scientific subject.

"His was a progressive mind. Edward Ezra's Jewishness was not of a melancholy kind that requires an apology for its existence. He never lamented because he was a Jew, and he showed it in word and action. How keenly he derided those Jews who regarded their birth as a misfortune. Such moral cowardice, he often told me, contributes to a large extent to the growth of anti-Semitism. No man can command respect who does not respect his own people. No wonder Zionism had his ready support. He probably did not study Zionism in all its aspects.

"His was a crowded life as he was engaged in many and diverse concerns, but he had time for civic duties, and he gave his time to the Municipality. He loved to help his community. He sustained his interest in the community ever since he was secretary of the Beth El Synagogue, and he brought to his work a rare business ability, tenacity of purpose, patience and perseverance. His crowning interest in the community was the organisation of the Ohel Leah Synagogue on modern lines. Much thought and labor he gave to this enterprise. He hoped to see his reward one day in the unification of the community in Shanghai.

"Like Moses he had only a glimpse of the Promised Land. He was not permitted to see the end of his work. We mourn for him bitterly. His sudden departure deprived us of an able worker and we needed him most. We needed his mature judgment to steer the community through its difficult problems. We did not expect that so soon we would be deprived of him. We cannot but hope that the example that he has given us will be an inspiration to others to rouse them to their sense of their duty. If the life of Edward Ezra is dear to us our appreciation should find expression in something more lasting than words. His work should be taken up by us and the thread that he has dropped should be taken up so that the spirit of Edward Ezra may live on in our deeds and actions. In this way we can rescue his memory from oblivion and ensure immortality."

# Fire Brigade Officer In Motor Accident

A motor accident in which a Chinese was seriously injured and in which Third Officer Upton of the Fire Department and his driver narrowly missed being badly hurt occurred shortly after noon yesterday while the Brigade official was answering a call to a fire on East Yuhang Road.

His car was crossing the Honan Road bridge when a Chinese youth on a cycle swerved out from behind a handcart directly in its path. The driver swung out and put on the brakes but the back wheel of the car struck the bicycle and the rider was thrown against the handcart, sustaining injuries to his head and foot. The near side wheel of the car struck the edge of the footpath and it was overturned, fortunately without injury to Mr. Upton or the driver. The cyclist was taken to Shantung Road hospital where his condition was said to be serious.

The brigade answered three calls yesterday, none of serious proportions. The one on East Yuhang Road and another at F272 Woochang Road were instances of defective flues and caused little or no damage and a third at 10:30 a.m. at 249 Sinza Road in a small cottom ginning establishment was extinguished by inmates.

# No Holly Ribbons But Red Tape Tie Xmas Gifts Here

(Continued from Page 1)

age is handed to you across the counter, and just as you are turning away with a relieved sigh, the clerk tells you that you'll have to go back to the Chinese post office in order to have the package opened.

Although you feel perfectly capable of cutting the cord yourself, you are so used to taking orders by this time that you hunt up an unballasted ricsha and start off on another local sightseeing tour. You present your package, hoping that they will let you have the string and paper back after they have commandeered the contents, and then stand by while an interested audience of coolies find out how much your friends think of you. If the duty is considered less than five dollars, you get back some small change; if your friends wanted to impress you by marking the value considerably higher than it is, you lose the five and a few other metal tokens besides. Then you have nothing left to do but roll up the package again, buy a bottle of nerve tonic, and pray that another boat won't come in for at least a week.

**SEND SILK TO SERICE**

Christmas gifts from home are sometimes as welcome as a box of stove polish to an African society leader in need of some new face cream. But why do friends send silk neckties to a country where they have whole herds of silk-worms on the hoof? Why do they send lace boudoir caps to a land where handmade lace is as common as sneezes at a Hayfever Convention? knd why—oh triple-distilled why! do they send fruitcake, fudge, roast goose, and other things to eat? After a month's voyage on the rollicking deep, a box of edibles is usually something to be opened at arm's length and to be pondered over by a chemist. The person who wants to say "Thank you" appropriately must either take the mixture to a laboratory or else write a very non-committal note saying, "I received your present and enjoyed them very much. Did the cook make it or did you raise those yourself?"

**IN NICK OF TIME**

Equally interesting are some of the Christmas cumshaws presented by the Chinese. We know a missionary doctor to whom a grateful patient last year presented two bottles of Scotch whiskey, the gift arriving just as the good medical man was entertaining his guests with a tirade against the Demon Rum. Another friend of ours reports the presentation of several steam-roller-caressed ducks, the kind which consist of only two dimensions and which swing cheerfully in the breeze in front of Chinese shops. Our own happy home has been remembered with a live turkey. As we have no lawns on which to let it graze, it is tethered at present to a suitcase in the trunk room and is continually sworn at through the door by O'Grady, the cat.

It is really wonderful how Christmas has reacted on the Chinese mind. Every store from Wing On's to the most undernourished curio shop are advertising holiday sales; beggars with borrowed infants are crowding the highways; ricsha men are trying to charge double fare, and superannuated coolies in smocked petticoats are peddling holly on Szechuen Road. Every lacquer ware man or linen purveyor who comes to the house announces that he belong "Christian" and is therefore willing to lose money on the sale. Even the servants, enlightened by coworkers as to the foreign habit of giving presents, speak touchingly of a sudden theological change.

**SAME PUFFY HANGERS**

After all, Christmas in the Far East isn't so radically different from the holiday at home. There is the same mica snow in the drugstore windows, the same puffy coathangers, fattened by a diet of cotton wadding and broacaded silk, and the same array of useless trifles which every woman will put aside to save for bridge prizes.

Partridge may take the place of roast turkey and stewed haws of cranberry sauce, but at least there are a few Christmas trees left in China and a few children who haven't been told yet that Santa Claus was cut out of the same piece of cloth as Little Red Riding Hood and the Japanese treaty with Korea.

# TILLSON SUES COLONEL QUINN; ASKS $50,000

## Former Shanghai Manager Of Montgomery, Ward Starts New Lawsuit

Suit for damages in the sum of Gold $50,000 was filed yesterday in the United States Court for China by Frederick Tillson against Col. J. F. Quinn as the latest development in the difficulties that have arisen since Colonel Quinn succeeded Tillson as Shanghai manager of Montgomery, Ward and Company.

Recently Tillson was acquitted in the British Police Court of charges of larceny made against him by Colonel Quinn and an outcome of this criminal action was a suit, now pending, filed by Tillson against Montgomery, Ward and Company, for Gold $100,000 damages and for a considerable sum for back salary and commissions.

In the latest action, filed yesterday, malicious libel is alleged. The basis of the suit is a letter, alleged to have been addressed to Montgomery, Ward and Company by Colonel Quinn on December 7 last. A copy of this letter, included in the complaint, charges that Tillson has appropriated funds of the company, has converted property of the company to his own uses and has led a dissolute life in Shanghai while grossly neglecting his duties as the company's representative here.

All the charges contained in the letter are denied and the claim of damages in the sum of Gold $50,000 is made.

## S. V. C. Notes

The Commandant extends to all ranks of the Corps his heartiest wishes for a happy Xmas.

The Headquarter officers are in process of moving into the Administrative building, and should be completely installed therein by the New Year. The new offices are on the first floor of the **South wing, the entrance being the same as that of the Electricity Department** in the Foochow Road.

The new miniature range on the roof of the new building adjoining the gymnasium is now under construction. Pending completion of this, the present miniature range at the Town Hall will be used.

In these notes some time back, in referring to the Artillery gun practice at Woosung, mention was made of the "Whangpoo." This name was thus spelt advisedly, because it is essential from the military point of view that all names of places quoted in orders and instructions should be spelt exactly the same as on the reference maps.

In this particular case, every one of the many maps available at Headquarters was examined before a decision was arrived at as to the spelling of the name of the river, but it was found that only on one map, and that a little known one, was the spelling "Huangpu" given, all the rest favoring the more familiar spelling.

But unfortunately that didn't settle the matter entirely, as in the case of one local paper which is kind enough to print our notes the spelling was changed by it to "Huangpu."

## *Shanghai Scottish May Add Platoon; Plan Manoeuvers*

The strength of the Shanghai Scottish Company of The S.V.C. is steadily increasing and it may be necessary before the end of the training season to form another platoon. The interest created in the S.V.C. football matches both rugger and soccer is adding to the zest of recruits and recruiting. Efforts are also being made to increase the strength of the Band and there are several in the Company who have more than an acquaintance with the pipes. It can be faithfully said that never in the history of the Company was such a high spirit of enthusiasm shown.

On Tuesday evening the Company was out for night operations in the Recreation ground. The work was entirely carried out under the command of the N. C. Os, and was in the nature of an inter-platoon "fight." The discussion amongst N. C. Os, which followed under the Chairmanship of the Company Commander revealed a very high standard of efficiency and conception of duties amongst those in command, though, if criticism may be offered, a little more attention could be well paid to direction and to the correct challenges and replies.

On January 15 the Company will again be out on field manoeuvers and afterwards the company will march to the residence of the Company Commander who along with Mrs. Campbell will entertain the members, their wives, etc.

## *Obituary*

**MR. J. M. REMEDIOS**

Funeral services for Mr. J. M. Remedios, prominent member of the Portuguese Company, S.V.C., will be held at Bubbling Well Cemetery this afternoon when military honors will be accorded by the Portuguese Company, members of which will attend in a body. Mr. Remedios died yesterday.

## Exchange Fluctuations
**Asia Banking Corporation**

December 22, 1921

Spot bar silver was down ⅛d. and forward ⅛d. in London yesterday.

The New York price declined to 66 cents, and the London-New York cross rate to 421.

The official Sterling rate this morning was dropped to 3-7, the Gold Dollar rate to 75½, the Rupee rate to 270¼, and the Yen rate raised to 63¾.

The market at the opening was easy, the best sellers of Sterling offering 3-7½ for December, 3-6½ for January and 3-5¾ for February.

There were sellers of Gold Dollars at the same time at 76½ for December, 75 for January and 74 for February.

However, banks were good buyers at these rates and, as there was no cover offering in the shape of bills, or sale on the part of speculators, rates eased off, and in the afternoon there were no sellers of Sterling for December at better than 3-7⅛, for January at 3-6¼ and for February at 3 5½.

At the same time, Gold Dollars were offered at 75¾ for December, 74¼ for January and 73¼ for February, the general undertone of the market being on the easy side.

The Continent and China sold silver in London yesterday, and India bought at the close.

The New York market is reported as being weak, with sellers and no buyers.

The general tendency of the silver market, therefore, still seems to be downward.

## Hankow Market

The British Chamber of Commerce at Hankow write as follows in their weekly circular dated Hankow, December 14.

The price of silver in London has fallen 1½d. ready and 1¾d forward during the past week, the respective quotations on 13th instant being 34⅞d and 34¾d. The estimated stock of silver in Shanghai on 10th instant was Tls. 24,200,000 and $23,700,000. The quotation for sterling T. T. today was 3/7d but a premium of 1d or more was obtainable in some quarters for near delivery. 4 m/s credit bills could be placed at 3/10d December with a cut for forward. The New York/London cross rate is 418¼ after having been as high as 423½. Chinese market rates, Shanghai Tls. 97.05. Local currency $70,225 Native interest 10% per annum.

The market has shown more activity throughout. Several purchases of cow hides, goatskins, white tallow and wood oil are reported. Near supplies of wood oil still command a premium locally but the American market has relapsed into apathy. Cotton is firm.

Piece Goods:—A slightly better feeling is noticable and some enquiry for blacks and whites at higher rates than those offering last week.

Yarn:—There was some enquiry for 16's and 20's and business has resulted therefrom.

At the General Hospital on the 22nd December, 1921, Jose Maria dos Remedios (Lipsy) in his 22nd year. Deeply regretted. Hongkong and Macau papers, please copy. The funeral will take place today, the 23rd December, 1921, at 4.45 p.m., at the Bubbling Well Cemetery. 44395

## The Red Cross Roll Call

THE China Central Committee of The American Red Cross is opening its Annual Christmas Roll Call today. In America the Roll Call begins on Armistice Day, November 11, and continues until Thanksgiving Day, which is the last Thursday in November. In Shanghai the Roll Call runs from December 23 to January 5.

If there is any section of the world, however remote, where the American Red Cross is not working and working efficiently, we haven't heard of it. Its activities are world wide and the urgencies of the situation in China, with its tremendous impending developments, make its appeal to us at this time irresistible.

In opening up the campaign for funds, which we intend to promote with all our energy, we can do no better than to quote the appeal for the American Red Cross Roll Call issued by President Harding last month:

"I recommend ministers and priests of all congregations to stress the gospel of service, and I invite and urge my fellow-citizens to accept the entire period of the Roll Call as an occasion for re-dedication of themselves to the principles and practice of service. The American Red Cross is both the volunteer and semi-official medium through which our people may appropriately express their patriotic and humane desires to render practical assistance to their soldiers and sailors, to their fellow-citizens in civilian life, and to those peoples of other lands who have a human claim on the sympathetic concern of our own people.

The American Red Cross has kept faith with the principles which gave it birth and with the obligations laid upon it by Congressional Charter—"to act in matters of voluntary relief and in accord with the military and naval authorities as a medium of communication between the people of the United States and their Army and Navy;" after a notable war service, it, in conjunction with the Veterans' Bureau and other activities, stands by our veterans and their families in a period of painful reconstruction, in which, as too many of us have been prone to forget, thousands are in pressing need, not only of governmental attention and assistance, but also of those supplementary acts of human kindness which only volunteer mercy can supply.

By systematic and scientific plans and equipment for relief from disaster, and by prompt response to many urgent calls throughout the past year, the American Red Cross has fulfilled another requirement of its Congressional Charter "to continue and carry on a system of national and international relief in time of peace and to apply the same in mitigating the sufferings caused by pestilence, famine, fire, floods, and other great national calamities."

After liquidating its obligations of general relief to peoples of other lands who were associated with us in the great war, it has concentrated its foreign efforts on a program for the medical relief of children in Central Europe, and, from funds made available last year, it continues this work of mercy, and also contributes from its medical and hospital supplies for the work of relief in Russia which is operated under American direction.

As a result of vast and varied experience during the World War, the American Red Cross has devised and put in operation an extensive domestic health and welfare program whereby our American communities are instructed and directed in the solution of those community problems upon which the public weal ultimately rests.

It is a fundamental principle of the Red Cross not to duplicate but to supplement the efforts of governmental and other agencies in the mitigation and alleviation of human suffering, and to supply the means thereto where other agencies do not exist. The call of the American Red Cross is the call of country and humanity, and I earnestly urge my fellow-citizens to make that response which satisfies the promptings of a generous people.

Warren G. Harding.

Note: Mr. Harding is President of the American Red Cross. The local officers of the China Central Committee are: Judge C. S. Lobingier, Field Representative; W. A. B. Nichols, Chairman; Ashley M. Harris, Executive Secretary; Clement J. Smith, Auditor, and Juleah Arnold, Dr. R. C. Beebe, Carl Crow, Rt. Rev. F. R. Graves, Dr. J. C. McCracken.

# Christian Science: Its Practical Excellence :-: By John C. Lathrop, C.S.B.

*(Note: Mr. Lathrop is a Member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts. This lecture was delivered in Shanghai last Evening)*

The purpose of this lecture is to show the practical excellence of Christian Science. It is not the intention to berate any religious or therapeutical theory, or any one's beliefs, but to persuade that Christian Science is just the happiest, the purest and most practical way to health and harmony the world has ever known; in short that it is Christ's way to salvation.

**CHRISTIAN SCIENCE THE GUIDE**

All persons desire harmony of mind and body. All desire to escape here and now the seemingly endless trials and sorrows, the sickness and suffering, the fear, sin and death of mortal life. All want salvation and desire a present salvation from the ills and torments of the flesh. Christian Science is the guide-post pointing the direct way to this salvation. Christian Science is more than the guide-post; it is also the conveyance. It points and provides the way out of disaster, and proves itself to be what Jesus foretold must come when he said, "I will pray the Father, and he shall give you another Comforter, that he may abide with you forever." (John xiv: 16). All who have felt the healing and saving power of Christian Science, believe that it is the long looked for Holy Comforter, "even the Spirit of truth" who "will guide you into all truth" (John xiv: 17, xvi: 13).

**IGNORANT AND SUPERSTITIOUS BELIEFS**

I came in touch with a good man who conscientiously believed that Christian Science is as he said "a new order, a new era, a new revelation," but he said his misfortune was that he was a mere onlooker, an outside, he could not enter in. The stumbling block to him in Christian Science was what he calls its denial of facts. He thought he was suffering from a tumor which he believed was a fact and that he was getting worse every day. He said he could understand that such an abnormal growth had no existence in a spiritual body, but that he was not a spiritual body, and not likely to become one. He said he vainly tried to meditate and pray. He longed for purity and righteousness and peace, but got only doubt and uncertainty and defeat. He believed that God could cure him if He would, but that God might desire him to die for the sins of some old ancestor he never heard about, that he was up against the hereditary law of "the sins of the fathers," and that such being the law, the fact, how could he deny it,—he could only "grin and bear it."

There is a common ignorance as to what law really is, what the fact is, what belief is, and what superstition is. There are still men and women who are sure that the stars sway human destiny, who will not look at the new moon over the left shoulder or through glass; they would not for the world go under a ladder; one foot before the other in getting out of bed, crossing a threshold or starting on a walk is beneficial or malevolent. This is superstition in a material age, and the more material a thought the more superstitious it is. Vast suffering and sorrow have been caused, and the law of heredity has been supported by a too hasty interpretation of Moses' Second Commandment about the sins of the fathers. Many people have sickened and succumbed because they feared they were of the third and fourth generation who must suffer for the iniquity of their fathers. What the Second Commandment really says is that it is only upon the children "that hate me" that the iniquity of the fathers shall be visited unto the third and fourth generation, and this is emphasised by the prophet Ezekiel who says, "As I live, saith the Lord God. . . . The son shall not bear the iniquity of the father, neither shall the father bear the iniquity of the son: . . . In his righteousness that he hath done he shall live . . . For I have no pleasure in the death of him that dieth, said the Lord God; wherefore turn yourselves, and live ye." (Ezek. xviii, 3, 20, 22, 32.) When will all good people see that God has no more pleasure in the sickness and fear, the ignorance and superstition of mortals, than he has in the death of him that dieth. Wherefore turn yourselves and live! Turn your thoughts away from the material and limited belief about God, man and the universe, about spirit and matter, about heaven and hell, about the Christ, Truth, and Jesus the way-shower, about prayer, baptism and atonement, about everlasting punishment and immortality. Turn, as your thoughts turned from the spinning wheel, the tallow candle and the stage coach. All these questions and difficulties are made clear by the teachings of Christian Science, and in the process thereof the sinner is awakened and the sick are healed.

**AWAKENING FROM MATERIAL BELIEFS**

Our timorous friend with the tumorous belief need not despair. He is not an outsider nor an onlooker, but is just as much a child of God, and within the scope of God's ministrations, as are all God's creation. What he needs is to be waked up, shaken up if necessary, to feel a fuller faith in God's allness and goodness, His omnipotence and His infinite ever-presence. The prophet Isaiah cried, "Awake, awake" "Loose thyself" . . . "Shake thyself from the dust" . . . "Put on thy beautiful garments . . . O captive daughter of Zion" (Isa. lii: 1, 2.) The situation with mortal belief is just the same today. Material belief still has many captives enveloped in "dust," blinded by an inherited, ignorant or educated false sense of God and man. O captive mortal, your eyes and ears are still filled with "dust," namely, the antiquated belief that life, intelligence and substance are in matter. "Shake thyself from the dust." Loose thyself, O captive mortal of today. Loose thyself to see what Christian Science reveals to the world, and it reveals just what the Bible reveals, namely, that God is All-in-all, therefore that He is omnipresent and omnipotent; that He is Spirit, hence Spirit is All-in-all; that He is Mind, hence Mind is All-in-all; that this one Mind by virtue of its oneness must of necessity be Principle or Truth; that divine Principle or Truth governs through immutable laws all God's creation, which are ideas or thoughts; that these ideas or thoughts constitute man and the universe, all being spiritual, individual and perfect; that this perfect and spiritual man is the image and likeness of God just as the first and real creation in Genesis records, and as spiritual ideas, the real man reflects God as the rays of light from the sun reflect the sun, and that this true likeness or reflection of God is our real selves, in other words the Christ man whom Jesus beheld in himself and called the son of God, the perfect man whom Jesus saw in others and thus healed the sick.

O captive mortal of today, you who believe you are a sufferer from disease of any nature, you also can shake yourself from the dust, and accept these fundamental truths. You can surely do it, and it will pay you to try. It will heal you and set you free. And when you have accepted these truths as foundational facts, what then is the inevitable conclusion? The query to follow is the natural question, What of this material man and universe? Whence came this man created according to the second chapter of Genesis, the male out of dust, and the female out of a rib? This dust man, or lust man, who by the very nature of his so-called origin and existence denies not only the allness of God as Spirit, but the allness of God as creator. What about this dust man and rib woman, and all their material, selfish, sickly and wicked thoughts? What about matter and the whole material world? What of them and if it be all error, how is the error to be accounted for and disposed of?

**DISPOSAL OF MATTER**

Did you ever try to lift yourself by your bootstraps? It can't be done. Yet this is the way some persons try to deny matter, by using matter to lift themselves out of matter, by looking at it continually and then deciding it is too real to be denied. And so they do not discover its unreality, and the true way to dispose of it. How do you dispose of an error in a mathematical problem? By looking continually at the error, by talking about and crying over it? Evil and error and matter, fear, sickness and death are outgrown by waking up from a false sense that we believed was true, and this false sense is changed by discovering the true sense of God, of man and the universe. Isn't it only by discovering the truth in mathematics that you get rid of the error?

**DROPPING MATTER LIKE LEARNING TO FLOAT**

Did you ever learn to float in the water? At first you are sure you will sink, and perhaps fear will cause you to but if you will be still and conquer fear, you will be upheld and carried along quite securely. It may seem hard to drop matter, and yet it is simple—like learning to float. Faith is the principal factor in learning to float, just as it is in learning to do any big thing. Faith in the unseen, in what the material senses do not testify to. Paul said, "For we walk by faith, not by sight." (2 Cor. v: 7.) Faith abolishes fear, and entirely changes your point of view. Christian Science calls matter error of material belief, because matter is the very opposite of Spirit, which is All-in-all, and God never made anything unlike Himself, Spirit. But whence came this error of belief with all its sin, sickness and death, to which we are captives? Whence came the belief that you couldn't float? But when you find yourself quietly floating down the stream, gazing happily up into the peaceful blue sky, you never ask yourself what has become of that belief. It will never trouble you again, and you know it, for it has vanished into that imaginary realm of ignorance and illusion to join its comrades—all those other false beliefs, beliefs in something unlike Spirit, God.

**JESUS' ATTITUDE TOWARD MATTER, EVIL AND DISEASE**

This seeming something, this false claim of life, intelligence and substance in matter which causes all fear, sickness, sin and death is the devil or evil which Jesus came to destroy. He denounced it as a liar from the beginning, and the father of lies, and said, "The light of the body is the eye (the thought): if therefore thine eye be single (thy thought be single), thy whole body shall be full of light." (Matt. vi: 22.) A lie is defined as a deception. Jesus healed the sick by knowing they were deceived by false beliefs, that they were captives of a darkened thought or false sense, and he set the captives free physically by his single thinking, that is, his right about God and man. Jesus' spiritual right thoughts reflected the Christ, Truth, which the captive felt mentally, and thus was freed from the influence of the evil and sick beliefs which were affecting him physically.

**JESUS' RECOGNITION OF THOUGHT**

Jesus well knew the allness of Mind, and the all power of right thought, thoughts which were single, in other words God's thoughts, thoughts which knew no power nor presence but Spirit, Mind, Truth and Love. Jesus knew, as he said, that "the Son can do nothing of himself, but what he seeth the Father do: for what things soever he doeth, these also doeth the Son likewise." (John v: 19.) Jesus could do nothing but think and reflect the thoughts which came from God. He knew of but one Mind, which to him was the Principle of man. The divine Mind being All-in-all was his Mind, as Paul says, "the mind that was in Christ Jesus."

**JESUS' EXPRESSION OF THE CHRIST**

It was thus that Jesus expressed the Christ, Truth, or the true idea of God. This explains his dual nature. Jesus the physical, temporal man, born of Mary, and Christ, the spiritual, eternal man, born of God. The Christ was manifested through the spiritual thoughts of Jesus, and this Christ, Truth, was the light and power that destroyed the sickly and sinful thoughts of mortals.

**ONENESS AND ALLNESS OF THOUGHT**

Jesus also knew that if the one Mind were his with which to think, it was the Mind with which to think of all God's children, and his real mission to mankind was to teach mortals this great fact. Then they could do the works that he did, and as he said, could do even greater works. It has been said, "Freedom of thinking is simply nonsense, and we are no more free to think without rule, than we are free to act without one." Such a belief savors of the fear and superstition of the dark ages. In its ignorance it expresses a very limited sense of God and man. It is a belief that is still in prison behind the bars of material law. Did not Paul and Peter, James and John emphasise the divine right of freedom in thinking? Paul said, "Let this mind be in you which was also in Christ Jesus" (Phil. ii: 5), and again, "Be not conformed to this world: but be ye transformed by the renewing of your mind, that ye may prove what is that good, and acceptable, and perfect, will of God" (Rom. xii: 2). Thomas A. Edison says, "To start thought going, is the highest mission of mankind." Start thought going, liberate man's true individuality, and the rules of right thinking will soon be revealed to him. These rules, and the divine Principle of these rules have been discovered in Christian Science, and are available for all mankind to understand and to utilise.

**RIGHT THINKING IS RIGHT PRAYER**

The act of using this divine Principle and these rules discloses the true meaning of prayer. In fact, thinking by divine Principle and rule, and thinking blindly according to material belief, constitutes the exact difference between right prayer and wrong prayer, the difference between the prayer that avails, and the prayer that gropes in the dark and fails, between the prayer that heals the sick as well as the sinner, and the prayer that limits God's power, and doubts His willingness to destroy all kinds of error. Most people believe that prayer to God is good thinking. Why not extend the good thinking, instead of limiting it or stopping it altogether? Extending it is exactly what Christian Science does. Extend it to the point of deciding that your thoughts shall no longer be governed by the false belief that life, substance and intelligence are in matter, with its sickness, sin and death. Extend it to decide that your thoughts shall be governed by the one Mind that was in Christ Jesus, by Life, Truth and Love, the divine Principle of man's being, and when your thoughts are thus governed, you find that then you are really praying, for right thoughts governed thus will reflect the Truth that heals the sick. Your thoughts are your own to manage them or allow them to manage you. Which shall it be? "Choose ye this day whom ye will serve," whether the divine Principle of man's being, or human will. Says the grateful one, "Right thinking healed me when everything else had failed. Good, clean, happy, wholesome thoughts took the place of bad, wrong, poisonous ones. I have somehow learned the truth about man. That's all. It's just that whereas I was blind, now I see."

**THREE ERAS OF MENTAL AWAKENING**

The human consciousness has experienced three eras of awakening since Jesus uttered those memorable words, "I have yet many things to say unto you, but ye cannot bear them now." (John xvi: 12.) First came the era of belief which prevailed from the third to the fifteenth century, namely, that one mind governed the world; but that was claimed to be one human mind which God had especially created to do the higher thinking. The next era was called the Reformation which began in the sixteenth century, when the great rights of freedom of thinking were insisted on, and when it was claimed that there were many human minds, each created by God, who gave each an equal and independent right to think for and govern himself. The third and last era has simply been the inevitable result of the second. In the ripeness of time in the year 1866, Mary Baker Eddy, a New England woman of Puritan forbears, discovered the divine Principle of being, which means that there really is and always has been but one Mind but that Mind is God, and not a human mind. She discovered that the material mortal mind is merely a false belief of life and intelligence in matter, in other works, an evil sense which mortals must overcome and out of which they must awaken. This discovery marked a distinct and radical advance over the previous eras, for with this discovery came the Spirit of truth foretold by Jesus, the full Christ power to heal mentally the sicknesses and sins of mankind.

**MRS. EDDY'S DISCOVERY**

Mrs. Eddy writes of her discovery in Science and Health with Key to the Scriptures, the textbook of Christian Science (p. 109), "Christian Science reveals incontrovertibly that Mind is All-in-all, that the only realities are the divine Mind and idea." She says, "This great fact is not, however, seen to be supported by sensible evidence until its divine Principle is demonstrated by healing the sick and thus proved absolute and divine. This proof once seen, no other conclusion can be reached. "She writes in Retrospection and Introspection (p. 28), "I had learned that thought must be spiritualised in order to apprehend Spirit. It must become honest, unselfish and pure, in order to have the least understanding of God in divine Science."

**CHANGE OF VIEWPOINT**

After your thought undergoes this necessary change, or you are healed or are able to prove the Principle of Christian Science, you will never again, if you have done so, think that Christian Science is queer or heretical, or be in the least disturbed perhaps because the discovery of Christian Science came through a woman. This will then be to you a most natural and beautiful dispensation. During the quarter of a century in which I have been active in Christian Science, I have seen hundreds of good people scorn, scoff at and revile its radical teachings, but within a day or a month, lo, I have seen their point of view changed, their thoughts completely transformed, transformed by the renewing of the Spirit. Roused and encouraged by the sensation of health, old thoughts have passed away, and all things have become new. Prejudice has given way to open-mindedness, fear to faith, and pride and self-will have yielded to meekness and trust. I remember a good woman, a former patient, whom I treated and treated; finally I discovered that what prevented her healing was her belief that if she was cured she would have to give up her church. When I assured her that this positively was not the purpose of Christian Science healing, but that her healing would make her a better Methodist or Episcopalian, her thought immediately became receptive, and she was restored to health at once. It is wonderful how the clouds and storm of a stubborn prejudice give place to the sunlight and peace of an enlightened consciousness. When you have been made well and strong through Christian Science, you will have only thoughts of love and gratitude for its discoverer.

**MARY BAKER EDDY**

I became acquainted with Mrs. Eddy twenty-five years ago, and for fifteen years at frequent intervals it was my great privilege to be a personal witness of her rare virtues. As a former member of her household, I can give first-hand testimony upon the beauty and consistency of her life. I believe no person ever lived, except Christ Jesus, who has loved humanity and sacrificed for humanity as Mrs. Eddy has done. Night and day for fifty years, without holiday or intermission she labored incessantly for mankind. Her absolute reliance upon God was her most conspicuous trait. Wholly fearless of criticism, above revilement, forgiving her enemies, with the true Christ spirit she pressed on overcoming evil after evil. When once asked what she did and how she stood it when she was so unmercifully maligned and persecuted, she quickly replied, "Why, I will tell what I do. I do as the tall grass does when the tornado passes over it. I bend, and when the storm has spent itself, I come right up straight again." Humility, patience and love have been the guiding stars of her life. The entire world seemed against her, but with indomitable courage, untiring persistence and Christly compassion, she worked unselfishly for her great ideal, which as she writes was "to impress humanity with the genuine recognition of practical, operative Christian Science" (Misc. Writings, p. 207).

**THREE STEPS NECESSARY**

The strongest and most appealing claim of Christian Science is that it operates, that it works. But like an automobile whose engine won't go unless it is given the right mixture of gas, Christian Science does not heal the sick or the sinner unless the mixture is right. Here Christian Science differs radically from an automobile, inasmuch as the oil or mixture used is the pure power of divine Principle, of Truth and Love, a spiritual understanding that uncovers every valley of sin, and lays low every mountain of disease. The human thought passes through three steps or stages in acquiring this power. And they are the same three steps taken in winning any worth goal. First, belief, second, faith, and third, understanding.

**BELIEF**

You take the first step, for instance, when you come to a lecture, or go to a practitioner, or read Mrs. Eddy's writings, because you believe enough in Christian Science to take the trouble to find out something about it. But that is only belief. The lecture, etc., give you, we trust, sufficient hope and courage to strengthen your belief, and to take the next step. We hope the Truth heard or read has changed your thoughts, and you are healed of some disease or sin. You are encouraged.

**FAITH**

You have seen the proof, and now have positive faith in what Christian Science can do. Your uncertain belief has become a surety, and you now have faith. But you cannot stop here. Faith is really only a way station. Yet, sad to relate, there is where most Christians get off and settle down. And they are not entirely to blame. They are like the old deacon who always began his long prayer, "Oh, Lord! we come to thee because we've nowhere else to go." Their faith has lacked something, something more vital to produce the greater works. James said, "Faith without works is dead." This does not mean that the sweet faith of many Christians has wrought no works whatever. But the signs and greater works that should follow them that really believe, have strangely been lacking. One moment faith is beautiful, active and full of hope; the next moment it has turned to doubt, fear and discouragement. Mrs. Eddy likens faith to a pendulum swinging between the real and the unreal, having no fixity. Human faith is blind. It is blind because it is personal; it is based upon personal material sense, and not upon divine Principle. Blind faith is the law without the gospel, the letter without the Spirit, and the letter alone, the Bible says, killeth. Human faith has lacked exactly what Christian Science has come to supply. It has lacked understanding.

**UNDERSTANDING**

Understanding is the backbone of faith, giving it strength and stability. It includes the good in faith but not the bad. Faith will no longer waver and be reversed when it has expanded into understanding. When you witness another pupil in mathematics get his answer you have faith, but not until you learn the rule and work out the answer yourself, do you have understanding. It is just so with the problem of life. Christian Science has come in the fulness of time to declare that the sweet Christian faith of the ages, while honest and humble, has fallen short and has not

# Christian Science: Its Practical Excellence

(Continued from Page 12)

satisfied because it has not been supported by spiritual understanding, the understanding of God to be the divine Principle of being, the understanding of Spirit, and of Christ, of Jesus and the real man; the understanding of matter, evil and sin, and the understanding of prayer, salvation and immortality. Spiritual understanding is more than human knowledge. Human knowledge comprises the things within the limits of the five material senses. Christian Science reveals man's true sense to be a consciousness of infinite Spirit and its infinite ideas—a consciousness of the unreality of evil and the material senses. This consciousness is spiritual understanding which casts out error and heals the sick. Thus Christian Science has opened the way to eternal harmony and happiness by supplying mankind with spiritual understanding, and therein lies its supreme and practical excellence as the Comforter leading into all Truth.

**EARLY CHRISTIANS LACKED SPIRITUAL UNDERSTANDING**

When Jesus said to his disciples, "I have yet many things to say unto you but ye cannot bear them now" (John xvi: 12), undoubtedly he meant that they lacked spiritual understanding. The "many things" he referred to were many things about God, and many things about evil and sin. It has taken centuries of human trial and experience to lift faith above a personal and blind trust in God to understand Him as Life, Truth and Love, as the one and only Mind, as the divine Principle of being, as omnipotent and omnipresent. In fact, in no other way can God be known as omnipresent and omnipotent. It has taken centuries to understand God as the one infinite Spirit, and to realise the sequence of this fact, that man must be spiritual and not material.

**SPIRITUAL UNDERSTANDING DENIES RELIEF IN SPIRITS MANY**

This understanding that there is one Spirit only and that the real man is the idea of Spirit, therefore cannot be material, completely denies the belief in spirits many or mortal bodies which can communicate spiritually, and shows that belief to be wholly material and erroneous. Of what profit is it to probe into the so-called immaterial world only to obtain information which depicts it as a sphere practically identical with the material. The belief of spirits many is a belief of minds many, persons many, bodies many, which is wholly a material condition, and is the very opposite of the one omnipresent Spirit. Christian Science reveals that the one Mind or one Spirit expresses all right ideas, including man, which communicate only by reflection, by spiritual consciousness and not by material.

**SPIRITUAL UNDERSTANDING UNMASKS ALL EVIL**

Spiritual understanding uncovers all the insidious workings of evil and sin. It does not belittle or ignore sin, as some have imagined. Far from this. Only spiritual understanding will unmask the subtle ways of evil. While revealing evil's complete nothingness, it exposes its false claims, forms, methods and subtlety. Evil must be understood for what it is not, before its influence upon mortals is destroyed. Hence the necessity for its complete exposure. Spiritual understanding alone discloses these "many things," which the disciples were not ready to bear. Had Jesus' immediate disciples and the early Christians possessed the spiritual understanding which uncovers and denounces the serpentine workings of evil and sin, their thoughts—their faith would have been invulnerable to the poisonous suggestions of the human will. Instead of being mental victims, they would have been mental victors, and Christianity would have been saved eighteen hundred years of delay, dissension, division, disease and death. The vital question which Christian Science presents to you today is, Will you be a victim or will you be a victor? Will you allow ignorance, fear, superstition and the human will to imprison you and make you sick, or will you be governed by the one Mind and Principle of your being and be free? "Choose ye this day whom ye will serve." The straight and narrow way is through spiritual understanding. An ardent church member after once attending a church conference at Asbury Park, New Jersey, said enthusiastically to one of the family, "I tell you, John Wesley believed just as Mrs. Eddy does." The person answered, "O grandma, but you know John Wesley believed in matter." "O, bother your matter," was the reply. Which may illustrate the difference between blind faith and spiritual understanding. Blind and personal faith did not need to understand the unreality of matter. To such personal faith, disease and suffering are inevitable. It says, Let them go on in peace, material remedies are easy to take, the doctor will look after the body, and the minister will attend to the soul. But eventually human thought will shake itself from the dust, and realise there is no other way than spiritual understanding to conquer material, law, the devil or evil, disease and death.

**NEW LOVE FOR GOD AND MAN**

The most comforting sensation that Christian Science brings is a new love for God and man. This new love reveals the true meaning of God as Soul. Love for God as an infinite personality in the form of a man has always been a limited love, since it has been impossible to conceive of an unlimited personal form. The five material senses never did and never can testify to such a God. It has been an imaginary God, and the love of Him in this personal form has been limited, and therefore the faith in Him doubtful and wavering. No wonder God has not been sought directly to heal our diseases as well as our sins. No wonder He has been appealed to in a wrong way through fear to forgive our inquities.

**LIMITATION AND FEAR**

Most mortals are limited in all their ways. They have a limited sense of health, of strength, of life, of supply and of love. Their happiness and joy are limited, and they hold a limited sense of God, of Christ, of man and of heaven. Fear accompanies this limited sense, for limitation and fear are companions and are the logical effects of a limited material consciousness. Denying the reality of matter, dropping the material personal sense of God, and claiming the allness of Spirit, the spiritual sense of Him as infinite Life, Truth and Love gradually dawns upon the thought and a new outlook, a new existence unfolds to the awakening thought. God, as manifesting all Love, all presence, all power now becomes possible and real. He becomes the one and only Soul or Spirit. He no longer is limited by the confines of material consciousness. Material consciousness gives way to spiritual consciousness, and thus spiritual understanding with all its power and dominion takes the place of limited faith. Limitation and fear are now put under the feet of spiritual understanding. The Principle and might of infinite Spirit, the light and presence of Infinite Love are found ever at hand to destroy the false beliefs of fear, sin, disease and death. Thus through Christian Science the fulfillment of Jesus' two commandments is made practical and possible. The ability to love God with all the heart and all the strength and all the understanding and your neighbor as yourself comes only through spiritual understanding.

**CHRISTIAN SCIENTISTS**

It has been said, "The strongest argument for Christian Science is the people who are Christian Scientists." This is truly judging the tree by its fruits. Christian Scientists show plainly the marks of conquest and victory. Formerly perhaps proud, arrogant, wilful, sensitive, sickly, discouraged, they now are free, active and happy, with faces radiating courage and health. They have been humbled by the Truth—the divine Principle of their being. The personal sense they have held of God, of themselves and others has changed to a spiritual impersonal sense. They now have learned how to turn to divine Principle for help and supply, how to depend upon Principle and not upon material personality. This has given them humility and peace and a strength outside of themselves. They now know how to work out their own salvation, and to let their light so shine before men, that men may see their good works and glorify their Father which is in heaven, which work really is all that satisfies. Christian Scientists have learned the wisdom of giving out. Obtaining all they have through demonstration of divine Principle, they cannot possibly keep to themselves what they receive. They can no longer be sponges. They are like rays of sunlight reflected by the mirror of Christian Science. And this is why they rejoice. Their window-panes of thought must be kept so clear that they will continually pass along the reflected love, and joy and strength and health, which are ideas of divine Mind coming from and returning to God. A Christian Scientist is learning how to work, how to loose himself from sin, how to awaken from mesmerism, how to banish fear, to conquer disease and to destroy death. In short he is learning how to live, and is getting ready to live and is not getting ready to die. Death to him is an enemy, as Paul called it, a false belief to be died to daily, that is, to be destroyed daily. Therefore death is nothing to be afraid of. It is merely the wages of sin, whose sting is abolished in human consciousness by the Christ, Truth, until "there shall be no more death, neither sorrow, nor crying, neither shall there by any more pain: for the former things are passed away." (Rev. xxi: 4.)

**DOING ONE'S OWN PART**

My friend, you of the timorous fear or the wavering faith, there is immediate hope, healing and salvation awaiting you. It is right at hand and awaiting you to do your part. To do your part means to humble pride and self-will, to do all you can, and leave the rest with God. Jesus once likened the kingdom of heaven to a merchant man seeking goodly pearls, who, when he had found one pearl of great price, went and sold all that he had, and bought it. You commence to do your part when you come to this lecture; now don't stop. You are still quite dusty. It requires what seems at first some sacrifice, but how can one ever fill a pitcher that is already full. It may seem like sacrifice to empty the pitcher, especially when it requires some effort, but you never overcame anything without rousing yourself and using energy. Afterwards you find you have made no sacrifice whatever; you merely have made room for the Truth and your tallow-candle has become an electric light. It was out until I decided to own a copy of Science and Health myself and to make some sacrifice and stay home evenings long enough to read carefully each night two pages of that book, that the truth in Christian Science became clear to me, and I began to understand its divine Principle. Then to get more and more understanding I found I had to prove what little I knew step by step, just as one does in arithmetic, and the more I proved the more clearly I understood.

**READING SCIENCE AND HEALTH**

You, yourself, can obtain this same start in Christian Science by reading Science and Health. Get a copy, and it will mean more to you if you own a copy. The little sacrifice may open your thought more to the Truth. Or go to a Christian Science reading room where you can read one. Read the book slowly, humbly, without prejudice, and with a hungering desire to know the Truth; then your thought will be receptive, and then the truth about God and man will be clear and will heal you. The last chapter in Science and Health contains one hundred pages of these impersonal healings; healings of the best kind, from getting the pure direct rays of Truth by reading Science and Health.

**ATTENDING WEDNESDAY EVENING MEETINGS**

Another thing you can do is to attend the Wednesday evening testimony meetings. Many hopeless and discouraged people have started on a new road after hearing the sincere and heartfelt personal experiences told at these weekly meetings,—healings of sickness and healings of sin, acute, chronic and organic, by present treatment and by absent treatment, or the healing of one's self through one's own work, which is a more impersonal and satisfying demonstration. Among the endless testimonies related, one hears for instance of the frequent healing of the tobacco habit. This form of bondage, like all other false appetites, yields readily to the purity and power of divine Principle. The speaker relates how he gradually became the victim of this unclean and poisonous habit, perchance deceived into believing that it would steady the nerves or give him courage; meanwhile going selfishly about enveloped in a foul atmosphere, which polluted and poisoned nature's sweet fragrance not only for himself but for all others with whom he came in contact. Chritian Science waked him up to the selfishness of this desire, made him willing to give it up, and took away the false appetite; and the buoyancy and strength in his testimony told plainly his freedom at being liberated from this too common form of bondage.

**A PRACTITIONEER'S HELP**

Another important step you can take is to go to a practitioner for help, and do not be afraid to do this. Pride and sensitiveness will try to hold you in pain and suffering. Having practised Christian Science myself for many years, I know what this fear and procrastination are like. The first treatment you take should and frequently does accomplish the healing; but should you be obliged to take more than one, it will be made an opportunity to assimilate more of the Truth, and gain more spiritual understanding. While helping you to be healed, the practitioner helps you to be a better representative of God, and helps you gradually to help yourself, to "bear [your] own burden" (Gal. vi: 5), as Paul puts it. In other words, to be the son of God and joint heir with Christ that you were created to be. And as God's child, you are helped to express the individuality, freedom and dominion which are your natural birth-right and inheritance. Mrs. Eddy inspiringly points this out in Science and Health (p. 228), "The enslavement of man is not legitimate. It will cease when man enters into his heritage of freedom, his God-given dominion over the material senses. Mortals will some day assert their freedom in the name of Almighty God. Then they will control their own bodies through the understanding of divine Science."

**THE REAL MAN, HIS BIRTH AND DOMINION**

This new view of man's true inheritance and present dominion is most encouraging, and is a revelation to the sufferer and to the sinner. To discover in Christian Science that you did not start from dust, or from a rib, or from an egg, and that this theory is only what material belief makes it, limited, sensual and dying, is to sound a trumpet of hope and victory. To find that you can shake yourself free from these obnoxious beliefs about the creation of man, and can do it now, and that in just the proportion that you do it, will the real spiritual man appear to your understanding, is to be born again, not of the flesh, but born "of water (purity) and of the Spirit," in accordance with Jesus' demand. (John iii: 5.) Then will "the old man with his deeds be put off," then will "the new man" (Col. iii: 9, 10) or spiritual man be put on, then will God's healing power, dominion and peace be fully expressed, and, in the words of Paul, "we (will) all come in the unity of the faith, and of the knowledge of the Son of God, unto a perfect man, unto the measure of the stature of the fulness of Christ." (Ephesians iv: 13.)

**The Chinese Engineering & Mining Company, Limited.**

Payment of Final Dividend onShares for the Year ended 30th June, 1921.

The Board having declared a FINAL DIVIDEND of 12% (Twelve per cent), free of Income Tax, for the year ended 30th June, 1921, holders of Bearer Shares and holders of Dividend Warrants received from London on account of Registered Shares, will be paid their Dividend on presenting No. 19 Coupon of the Bearer Shares, and Dividend Warrants on Registered Shares, to either of the following Banks at Shanghai or Tientsin:

The Hongkong & Shanghai Banking Corporation,
The Chartered Bank of India, Australia & China,
The Russo-Asiatic Bank,
The Banque Belgo pour l'Etranger.

The payments will be made in either Dollars or Taels as the holder may wish, at the buying rate of exchange of the day.

### For River Ports

**HANKOW & PORTS.**—The China Navigation Co.'s Steamer **Shengking**, Capt. G. P. McAdam, will leave from the French Bund on **Friday, Dec. 23**, at about 12 o'clock midnight. For Freight or Passage, apply to **BUTTERFIELD & SWIRE**, Agents French Bund. Tel. C. 4881, Private Branch Exchange to All Departments.

**HANKOW & PORTS.**—The Indo-China S. N. Co.'s S.S. **Tuckwo**, 3,770 Tons, Capt. Polkinghorn, will sail for the abovementioned ports from Hunt's Wharf on **Friday, December 23**, at about midnight. For Freight or Passage, apply to **JARDINE, MATHESON & Co., Ltd.**, General Managers. Telephone: Central 241. Extensions to Freight and Passenger Departments.

**HANKOW & PORTS.**—The Str. **Kiangsin**, Captain Philips, will leave on **Friday, Dec. 23**, at midnight. For Freight or Passage, apply to **C.M.S.N. Co.**

**HANKOW & PORTS.**—The China Navigation Co.'s Steamer **Whangpu**, Captain Pickard, will leave on **Saturday, December 24**, at about 12 o'clock midnight. For Freight apply to **BUTTERFIELD & SWIRE**, Agents. Tel. C. No. 4881, Private Branch Exchange to all Departments.

**PUKOW.**—The China Navigation Company's Steamer **Chenan**, Captain P. H. Purslow, will leave on **Sunday, December 25**, at 8 a.m. For Freight or Passage, apply to **BUTTERFIELD & SWIRE**, Agents. Tel. C. No. 4881, Private Branch Exchange to All Departments.

**HANKOW & PORTS.**—The China Navigation Co.'s Steamer **Tatung**, Captain K. E. Tuebben, will leave from the French Bund on **Monday, December 26**, at about 12 o'clock midnight. For Freight or Passage, apply to **BUTTERFIELD & SWIRE**, Agents French Bund. Tel. C. No. 4881, Private Branch Exchange to All Departments.

**HANKOW & PORTS.**—The Indo-China S. N. Co.'s S.S. **Wosang**, 1,783 Tons, Captain McClelland, will sail for the abovementioned ports from Old Ningpo Wharf on **Monday, December 26**, at about midnight. For Freight or Passage, apply to **JARDINE, MATHESON & Co., Ltd.**, General Managers. Telephone Central 241. Extensions to Freight and Passenger Departments.

**HANKOW & PORTS.**—The China Navigation Co.'s Steamer **Chungking**, Captain J. Legge, will leave on Tuesday, December 27, at about 12 o'clock midnight. For Freight, apply to **BUTTERFIELD & SWIRE**, Agents. Tel. Central No. 4881, Private Branch Exchange to All Departments.

**HANKOW & PORTS.**—The Indo-China S. N. Co.'s s.s. **Loongwo**, 3,925 Tons, Captain James, will sail for the abovementioned ports from Hunt's Wharf on Tuesday, December 27, at about midnight. For Freight or Passage, apply to **JARDINE, MATHESON & Co., Ltd.**, General Managers. Tel. C. 241. Extensions to Freight and Passenger Departments.

**HANKOW & PORTS.**—The steamer **Meian**, Captain Mender, will be despatched from Shanghai on **Tuesday, December 27**. For Freight, etc., please apply to L. Y. Lang, No. 8 French Bund. (Tel. Nos. Central 4702 and 3059).

**HANKOW & PORTS.**—The China Navigation Co.'s Steamer **Woosung**, Captain C. C. Williams, will leave from the French Bund on **Wednesday, December 28**, at about 12 o'clock midnight. For Freight or Passage, apply to **BUTTERFIELD & SWIRE**, Agents French Bund. Tel. C. No. 4881, Private Branch Exchange to All Departments.

**HANKOW & PORTS.**—The Indo-China S. N. Co.'s S.S. **Lucnho**, 2,868 Tons, Captain Reid, will sail for the abovementioned ports from Hunt's Wharf on **Thursday, December 29**, at about midnight. For Freight or Passage, apply to **JARDINE, MATHESON & Co., Ltd.**, General Managers. Telephone C. 241. Extensions to Freight and Passenger Departments.

**HANKOW & PORTS.**—The China Navigation Co.'s Steamer **Poyang**, Captain F. McCarity, will leave from the French Bund on **Thursday, December 29**, at about 12 o'clock midnight. For Freight or Passage, apply to **BUTTERFIELD & SWIRE**, Agents French Bund. Telephone Central 4881, Private Branch Exchange to All Departments.

**HANKOW & PORTS.**—The Indo-China S. N. Co.'s S.S. **Suiwo**, 2,671 Tons, Captain Everett, will sail for the abovementioned ports from Hunt's Wharf on **Friday, December 30**, at about midnight. For Freight or Passage, apply to **JARDINE, MATHESON & Co., Ltd.**, General Managers. Telephone C. 241. Extensions to Freight and Passenger Departments.

**HANKOW & PORTS.**—The Indo-China S. N. Co.'s Steamer **Esang**, 1,782 Tons, Captain Williams, will sail for the abovementioned ports from Old Ningpo Wharf on **Saturday, December 31**, at about midnight. ## Wharfage and Landing Charges

Owing to the increased cost of working and maintenance the undermentioned Wharves find it necessary to raise the charges for WHARFAGE, LANDING and DELIVERY, and after careful consideration beg to announce that on and after January 1st, 1922, there will be an increase of 10 per cent. on the present R. S. & D. tariff, dated January 1st, 1920.

STORAGE RATES

Revised STORAGE TARIFFS have been drawn up and are in course of distribution, the new rates applying to all goods not on Landing Accounts or Godown Warrants on January 1st, 1922. Copies will be supplied to all Firms communicating with the various Wharves.

December 21, 1921, Cause No. 1568, Ritchie v. Montgomery Ward and Co.; demurrer.

## Many Complainants To Bring Charges Against Leicester

G. B. Leicester appeared before Magistrate G. W. King in the British Police Court yesterday morning and was charged with obtaining the sum of $50 from one Ju Ling-tai by false pretenses, it being alleged that he promised to secure the man service as a boatswain on the steamer Butte.

According to police testimony there were 25 other Chinese in court who have similar complaints to make against the defendant and nine have already turned in receipts to the police showing total payments of about $1,200.

Detective Sergeant Yorke stated that he had arrested Leicester on board the steamer Cathay at about 2:45 p.m. Wednesday when he remarked that if the witness had waited another 24 hours it would have been too late.

The receipts claimed to have been given out by the defendant were signed "The Far Eastern Steam Navigation Co., Ltd."

Bail was set at $4,000, to be furnished by two British residents acceptable to the court and the case was remanded until next Thursday.

MARY PICKFORD
Prefers real baby to French doll in
"THE HOODLUM"
Coming next week

Until she left her Millionaire Grandfather's home Amy had never had a real baby in her arms. When she first saw slum children she "couldn't bear to have the dirty brats touch her." Then something happened and she learned there's nothing so sweet in all the world as a real baby snuggling close up to one's breast. It's a beautiful quiet bit in between the funny or exciting scenes in this second picture from Mary's own studios.

To keep a supply of
"Watson's Dry Ginger Ale"
in your Home, means
TO KEEP OUT COLDS

Nothing beats it. It warms you up, stimulates and sustains. Its tonic effects are almost instantaneous, and do not pass away quickly. Entirely non-alcoholic, therefore suitable for old and young alike.

Prepared under Mr. Piens' personal supervision.

**Watson's Mineral Water Co.**
FACTORY: (Always open for inspection) 134 N. Szechuen Road, Tel. N. 795.
TOWN OFFICE: 11 Ningpo Road (opposite Carlton Cafe), Tel. Central 2726.
Manager's telephone: North 195.

N.B. As a precautionary measure the whole of the company's employees, workmen, etc., have been vaccinated at the company's expense, and arrangements made for their daily medical examination while the present crisis lasts.
